

GREAT COAL STRIKE CALLED OFF

Garfield Says Miners' Pay Will Average \$1,600 Year

Dr. Harry A. Garfield

INSTITUTIONS OF STATE ARE FACING CRISIS

SACRAMENTO, Dec. 10.—Sixteen state institutions are faced with disaster if prompt and decisive steps are not taken immediately, according to evidence given today at a hearing before the State Board of Control. These are some of the points on which the crisis hinges:

Practically no sugar is available for state institutions and no method of buying sugar wholesale has been found.

With an extensive building program laid out, nails and steel are unavailable.

There is no money on hand and the only solution of the food problem seems to be production of the needed food by each institution for its own use.

The state hospitals and asylums are getting to the end of their supplies.

In the state hospital at Norwalk 600 patients are quarantined where only 500 should be.

A \$250,000 building program was planned to give more room but it is impossible to carry out this program on account of a shortage of materials.

Orders were sent out today to each institution providing for a start in the farming industry on a large scale.

AIR SERVICE BOOZE STORY TO BE PROBED

WASHINGTON, Dec. 10.—An official investigation will be ordered by the War Department into statements attributed to Lieut. Melvin W. Maynard of the army air service that the secret of the failure of some of the pilots in the recent transcontinental army air race "can be attributed to too much booze."

HEAVY RAIN IN NORTH COMING SOUTHWARD

SAN FRANCISCO, Dec. 10.—Nearly an inch of rain fell here during the night and more will fall today and tomorrow according to the U. S. weather bureau. The downpour was accompanied by heavy southerly gusts, but no damage was done to local shipping, the Marine Exchange reported today. A strong southerly gale is predicted for tonight. Heavy rainfall is predicted for both the Sacramento and San Joaquin valleys tonight and Thursday, by the local weather bureau.

REPUBLICANS WILL HOLD CONVENTION IN CHICAGO

EFFICIENCY CAMPAIGN PLANNED IN 1920

WASHINGTON, Dec. 10.—Chicago today was selected by the Republican National Committee as the place for the 1920 national convention and the date was set for June 8.

Detailed plans for a "campaign of efficiency" were made by the committee at its meeting which began here this morning. Chairman Hays announced the committee had authorized appointment of a platform conference with many of the characteristics of an industrial commission to sit continuously from now until the end of the convention when it will make a report embodying suggestions as to platform planks, based on six months' study of national problems.

Hays also announced formation of a council consisting of twelve members of the national committee who are also members of the special committees on platform and policy and twelve others, four of whom are to be women. The province of the council would be to deliberate on matters touching party welfare and to make recommendations for consideration of the national committee itself.

The plan is to bring to the aid of the national committee the experience of some of the strongest party men and women, it was stated, enabling the committee to co-ordinate all sorts of party activities.

Other bodies to be appointed later included an executive committee, a committee on arrangements, organization, publicity and finance.

William Wrigley, of Chicago, is to head a division of public information.

WASHINGTON, Dec. 10.—Dissatisfaction with things as they are exists everywhere among the American people and the issues of the 1920 political campaign are echoes of the widespread demand for a change in the present order, according to reports brought to Washington by Republican politicians here to attend the meeting of the Republican National committee today.

The chief issue, these men say, is demand for different policies of government. This assured Republican victory, they argue, on the ground that the Democratic party will not change existing government policies while its present leaders are in control.

Translating the reported demand for a change into practical details, committee members and other trained political observers here were practically united today in asserting the greatest complaint is against taxes.

Business men demand elimination of the many kinds of war taxation, the return of taxation to a simple peace basis, and considerable reduction in rates, it was declared.

Next to tax reduction, the people are said to want an end of government control, or as they put it, according to one politician, government interference with the prices of food, the law of supply and demand, and public utilities.

That a strong and apparently increasing demand for treaty ratification exists appears certain from what little can be gleaned from almost monosyllabic answers to inquiries along this line. Again, it is the business men who are interested.

As to the League of Nations, committee men who would discuss it, said there appears to be little interest in it.

Every politician questioned about issues mentioned in Americanism. There is much vagueness as to just what that is to mean in the party platform. The demand along this line, committee men said, is for a change in the government's policy toward agitators. Drastic laws and rigid enforcement of them is desired, it was stated.

Four Dead, Hundreds Made Homeless By Southern Floods

ATLANTA, Ga., Dec. 10.—Four known dead, hundreds homeless and property damage running into thousands of dollars was the toll today from floods in Georgia, Alabama and Mississippi.

Train service was badly crippled. Rivers and smaller streams swollen by rains since Saturday, were overflowing their banks into the lowlands.

Train service into Meridian, Miss., was reported almost at a stand still while the Southern Railway between Atlanta and Macon, was annulling trains as a result of several washouts.

LAY PLANS TO SAVE LIFE OF HARRY S. NEW

LOS ANGELES, Dec. 10.—That a hard fight is to be made in the courts here beginning next week to save Harry S. New from the gallows, was indicated today when various plans of the defense were allowed to become public.

From these plans the following points were outstanding: Harry New, who is accused of murdering Frieda Lesser, his sweetheart, and then delivering her body to the police station in his automobile, will not take the witness stand in his own defense.

A strong effort to save New on the grounds of insanity will have many ramifications. In addition to over thirty depositions, detailing the story of New's life and his alleged relations with United States Senator Harry S. New of Indiana, whom he claims as his father, six depositions from Oklahoma City will be introduced to tell how New is alleged to have worked there as a street sweeper.

The defense will fight to prevent introduction in evidence of New's alleged confession made at 4 a. m. July 5, less than an hour after he came to the police station with Miss Lesser's body.

If an unconditional discharge of the case on the grounds of insanity cannot be secured, the defense will seek a verdict of manslaughter on the ground that the alleged murder of Miss Lesser was done in a moment of "heat and passion" and was not premeditated.

The prosecution is laying elaborate plans to combat these lines of defense as well as to prove its own case. District Attorney Woolwine revealed today that a second allegation by the state, Dr. Chas. Lewis Allen was engaged more than a week ago.

Preparations in the courtroom for the trial are now being made. The room is small and court officers said there would be no hope of accommodating the crowds which are expected to attend the trial. Long tables for the press take up a large portion of the room.

WOMAN WHO CLAIMED CHILD NOT MOTHER

TORONTO, Dec. 10.—Mary Ryan was declared the mother of "Baby Irene," whom Mrs. Dolly M. Matters of Chicago claimed as hers, in a judgment handed down today by Judge Lennox, in the Ontario supreme court.

Mrs. Matters, who is on bail on a charge of kidnapping the child, will lose the right to a large estate willed her by her husband on the condition of her becoming a mother, if the court decision is upheld on appeal.

HOG MARKET TURNING POINT IS SEEN TODAY

CHICAGO, Dec. 10.—A turning point in the hog market here was seen today by market experts when hogs showed an increase of 25 cents at the opening. Hogs during the past week declined \$1.85, due largely to big receipts. Authorities believe, however, that since the cold weather has set in the hog shipment will drop off considerably, causing a stronger market.

TELLS PLANS FOR ROADS WITHOUT BONDS

BY using funds now spent annually in building new roads and adding the amount that would be returned by the additional tax rate to be imposed as the result of a proposed bond issue of \$2,500,000, the county can build within five or six years the same number of miles of roads that can be constructed under the bond issue, with the principal not holding against the county.

This was disclosed last night by Supervisor Finley at the meeting of the committees appointed at the suggestion of the board to determine the roads that should be improved in four of the five supervisory districts. Interest on the bonds at 5 per cent would be \$125,000 for the first year and the redemption, \$62,500. The county is now spending \$100,000 annually in the construction of new roads. By taking one-half of the \$200,000 raised for road purposes by the 40 cent road levy, another \$100,000 would be available for paving, making a total of \$375,000 annually that could be used. This sum will build about twenty miles of concrete road each year.

Under this plan, when the roads are completed at the end of five or six years, the additional tax rate could be eliminated, there would be no bonds to redeem or interest to pay on unredeemed bonds for the following thirty-five years, if the bonds were made for forty years. The additional tax rate would be between 18 and 20 cents.

It is maintained that under the bonds it would take probably four years to complete the work on the roads proposed, basing this estimate of time on the experience of the county in constructing the present system.

There was a very small representation of the appointed committee at the meeting to act upon the report of the subcommittee of

(Continued on page two)

BULLETINS

NEW YORK, Dec. 10.—Twenty cars oranges and 3 cars of lemons sold. Orange market on local Valencia 10 to 25 cents lower, on poor stock 50 cents lower; on good colored navel 25 cents higher; pale stock, 25 to 50 cents lower. Averages \$2.38 to \$7.81. Highest price 12 boxes Hart, \$8.85. Lemon market 25 cents higher on best 30 sizes, otherwise unchanged. Averages, \$1.04 to \$4.34. Weather fair, 8 a. m. temperature 46.

MEXICO CITY, Dec. 10.—The state court at Puebla, Mexico, today took up the request of American Consul Agent Jenkins for annulment of his \$500 bail and for readmission to the penitentiary at Puebla. When Jenkins was released recently on bail furnished by another American he knew nothing of bail being put up. He had steadfastly refused to furnish his own bail contending this might be interpreted as recognition of charges that he was in collusion with the bandits who kidnapped him.

LOS ANGELES, Dec. 10.—Robert Carr, aged 18, of El Monte who has been sleeping with the so-called sleeping sickness for 42 days awakened last night, physicians at the hospital said today. Thus far, however, he has not regained the use of his muscles.

WASHINGTON, Dec. 10.—Supreme Court Justice Brandeis today refused to overrule the action of lower federal courts in the case of Alexander Berkman and Emma Goldman, anarchist leaders, who are fighting to prevent their deportation to Russia. Harry Weinberger, attorney for the two anarchists, will put the matter up to the full court.

Cold Wave Sweeping East Where Fuel Is About Exhausted

CHICAGO, Dec. 10.—A cold wave sweeping east from the Rockies caused widespread discomfort throughout the middle west today. Reports from the west showed actual suffering in many places where the cold blasts found fuel supplies exhausted.

The weather bureau reported the wave sweeping east and south sending the temperature to zero as far south as the Texas Pan Handle.

Temperatures two below zero and lower were reported from the Dakotas, Nebraska, Missouri, Colorado, Wyoming, Idaho, Oregon and Montana.

GERMANS LIKE NEW TONE OF ALLIED NOTES

BERLIN, Dec. 10.—The Allied notes demanding Germany immediately accept the protocol to the peace treaty were received this afternoon.

The tone of the notes, according to German official circles, was considered conciliatory. It was understood the entente agrees to permit postponement of delivery of German docks and marine materials, demanded as reparations for the sinking of the interned German fleet at Scapa Flow, until it can be determined whether their surrender would hopelessly cripple Germany's industries, as the Germans have contended.

The entente, however, refused to change its stand toward German war prisoners and holds to its right to invade Germany if she transgresses any of the rules laid down by the peace conference and armistice.

The notes on the Scapa Flow matter, it was understood, require that Germany list the marine materials demanded, nominally delivering them to the Allies, but with privilege of demanding their return if the German government is able to prove delivery is overburdensome when the matter is submitted to arbitration.

This was regarded by the Germans as virtually an admission Germany will be allowed to retain the docks.

"Germany will sign," a well posted diplomat here declared when he had heard the provisions of the Allied notes.

Foreign Minister Mueller was expected to present the notes to the Reichstag for discussion immediately so the government may send its instructions to Baron Kurt von Lersner, the German representative, in Paris.

GEN. WOOD ASKS LAWS TO CURB RADICALISM

CHICAGO, Dec. 10.—Four measures leading toward a more thorough Americanization were demanded today by Maj. Gen. Wood, speaking at the Y. M. C. A. The general asked for more adequate laws for the deportation of alien agitators, legislation dealing more effectively with "reds" of American birth, close scrutiny of immigration and immediate universal military service.

FIVE PERSONS LOST IN STORM ARE SOUGHT

DENVER, Colo., Dec. 10.—Five persons who disappeared in a blizzard Sunday night, somewhere between Denver and Cheyenne, were being sought by searching parties early today. Friends, alarmed at the disappearance of G. R. Beatty, his wife and two year old child and J. J. Shewalter and wife, all of Cheyenne, left the Wyoming city late yesterday in two automobiles carrying food and first aid supplies.

COSTA RICA PRESIDENT

SAN JOSE, Costa Rica, Dec. 10.—Julio Acosta has been elected president of the republic to serve from 1920 to 1924. He received an immense majority over Dr. Jose M. Soto.

MINERS' CHIEFS VOTE TO ACCEPT PROPOSAL OF PRESIDENT WILSON

INDIANAPOLIS, Dec. 10.—The most far reaching industrial struggle in America's history ended today when chiefs of the United Mine workers of America meeting here accepted the proposed agreement submitted by President Wilson.

Following the meeting Acting President John L. Lewis issued the following statement:

"The United Mine Workers' representatives agreed to accept the president's proposal as a basis of settlement of the coal strike. They did this because it provides a definite, concrete and practical method by which adequate consideration and a proper adjustment of their claims for an increase in wages and improved conditions of employment may be brought about."

We Don't Realize East's Fuel Need, Says Chas. Treat

"Chicago is in a bad fix for want of coal," declared C. E. Treat, president of the T. & W. Universal Plug Co., on arriving home from a business trip in the East. Treat had expected to establish an eastern factory for the electric plug that his firm is making, but was unable to find a site that was suitable in location and price. He is to return east next month and expects to build the plant then.

"The shortage of coal is far more serious than people out here seem to realize," said he. "Chicago has had to cut down production on all lines. Factories run only six hours a day. Electricity is saved wherever possible. They are on a war basis right now in Chicago. Elevators quit running at 3:30 p. m. There is no heat in street cars or subway trains."

"As I was coming west I passed a good many trainloads of coal going east. I don't know whether there was enough to relieve the situation or not."

"Everyone in the east seems to be busy. Wages are away up, but prices are, too. The furthest east I got the higher were prices. When I left Chicago eggs were \$1.05 a dozen and butter was 85 cents a pound."

At conferences held by various state groups, Indiana and Ohio representatives agreed to stand by the president's proposal, it was learned shortly before today's meeting opened.

Kansas and Illinois were the only groups hanging back on endorsement of the proposition, it was reported.

Palmer Confident
So confident was A. Mitchell Palmer, United States attorney general, here in connection with the coal strike question, that the miners would accept the government's proposal that he planned to go to French Lick today as the guest of Tom Taggart, former United States senator.

The miners at the session yesterday considered calling Palmer in to address the meeting, but on account of opposition by some of the officers the invitation was not extended.

The question was raised today by some of those attending the conference as to whether or not the officials attending the meeting here had the right to accept the 14 per cent increase. Several district presidents, especially from middle western districts, declared only the national convention has the right to consider the new agreement.

There seems to be no doubt among those attending the meeting here today that the rank and file of miners will abide by whatever decision is reached.

Shorter Fuel Rations In Chicago With Storm Near

CHICAGO, Dec. 10.—With the mercury below zero and a blizzard predicted by the weather man, Chicago went on shorter fuel rations today.

The Illinois Public Utilities Commission continued in force all conservation measures included in its order of last week, which is more drastic than the Garfield national order yesterday.

Springfield, Ill., reports indicated, miners intend to abide by the decision of the union chiefs at Indianapolis. Cars were reported mobilized at the mines ready for immediate production.

Miners of Coal Valley, near Rock Island, Ill., 137 in number were to return to work today regardless of outcome of negotiations.

Miners at Marion, Ill., said they would not return to work at 14 per cent, according to report. They predicted the defeat of the government proposal.

Missouri miners recently seized by Governor Gardner were producing coal today.

MODesto PEOPLE VOTE \$289,000 IN BONDS
MODesto, Cal., Dec. 10.—Modesto yesterday voted \$289,000 in bonds for municipal improvements. The total issue asked was \$410,000.

The bonds voted include street intersections, storm sewers, sanitary sewers, liquifying sewage tanks and water tanks.

12 INITIATED INTO LODGE OF ELKS

Santa Ana 'Bills' Planning On Going to Catalina Saturday

Twelve Santa Anans today were "baptized" into the mysteries of Santa Ana Lodge No. 794, B. P. O. E., at a well-attended meeting held last night. Those initiated were:

Byron B. Walbridge, Charles V. Doty, Frank Seidel, Herman A. Reuter, Wilford G. Lewis, Frank L. Burns, Martin H. Shields, Clyde C. Whitney, Walter C. Vieira, Charles F. Smith, Charles D. Brown and Edward M. Paterson.

The lodge voted to attend evening services at the Episcopal church of the Messiah in a body on December 21. The rector of the church is Rev. W. L. H. Benton, chaplain of the local lodge. The decision to attend the church en masse revives a custom which prevailed in the order several years ago, when Rev. David Todd Gilmore, formerly of Anaheim, was chaplain of the Santa Ana lodge.

Numbers of Santa Ana "Bills" are planning on going to Avalon, Catalina Island Saturday, when the San Pedro lodge will initiate a class of sixty or more candidates at the island town. Steamers will leave San Pedro at 10, 12 and 2 o'clock Saturday, it was announced.

PETITION RECALLS DEATH IN YEAR 1913

Through a petition which was on file in superior court today, E. Walter Pyne, with W. F. Menton as his attorney, will seek the administration of a \$200 estate left in this county by Hallie Heaton, who died in 1913 at Tampa, Fla.

The only heir is John A. Heaton, husband of the deceased, the petition stated. The petitioner was nominated by Heaton.

CANCEL ASSESSMENT
The assessment against a lot owned by the Mennonite church, at Orange, has been cancelled by the board of supervisors.

BRONZE VICTORY BUTTONS HERE FOR GOBS

Local Recruiting Officer Has Received a Number For Distribution

Recruiting Officer R. W. Corson, in charge of the local station at room 224, W. H. Spurgeon building, has received a number of bronze victory buttons for distribution to men who have honorable discharges from the navy or naval reserve force. Buttons are available to those who served between April 6, 1917, and November 11, 1918.

Upon applying for buttons, it will be necessary to produce discharge papers. Buttons here are not for reservists on inactive duty, as they will receive their buttons from the commandant of their naval district.

Western men are fast manning the Pacific fleet, according to information coming to the local recruiting office. This fleet, which is to protect the Pacific coast, is rapidly becoming America's first line of defense. The Western district, which is composed of Los Angeles, San Diego, El Paso, Salt Lake, Seattle and San Francisco, is leading all other divisions in the percentage of enlistments during the past two months. In the percentage of the men enlisting in the aviation branch of the navy, the Western Division more than tripled the next nearest of the seven divisions. The Los Angeles station, which includes Santa Ana and other recruiting points, heads the Western Division in the percentage of enlistments. Only one man was physically rejected after departure from Los Angeles.

"Two years in the navy service will make any young man bigger and better, broader and brighter," today declared J. P. Hedrick, who is assisting Corson in the work here.

TO RECEIVE BIDS
Bids for resurfacing a section of a little more than a mile and a half in length on the Buena Park-Commonwealth road will be received on December 30, at 10 o'clock, pursuant to a decision reached by the board of supervisors.

PLAN TO POINT OUT BETTER METHODS

Well Known State Speakers Are on Program to Be Given Soon

The following program will be given at Normal Hill Center, Los Angeles, at 2 p. m., December 20th. Orange County Farm Bureau members are invited to attend.

1. "Federal and State Agencies Interested in Rural Betterment," Prof. B. H. Crochran, Director of Agricultural Extension of the College of Agriculture, University of California, Berkeley.

2. "The Motive for Better Farming," Dean Thomas Forsyth Hunt, College of Agriculture.

3. "Land Colonization and the Breaking up of the Larger Holdings," Prof. Elwood Mead, College of Agriculture.

4. "The Farmer as a Profiteer," Carlyle Thorpe, General Manager of the California Walnut Growers' Association, Los Angeles.

5. "National Organization of Farmers to Improve Rural Conditions," Volney H. Craig, representing the California Farm Bureau Federation, San Fernando.

DAIRY LEADER HELPS IN DAIRIES CONTEST

J. C. Marquardt of the Dairy division of the University of California Farm, Davis, has gone to Los Angeles to assist in the milk contest to be held by the City Health Department of Los Angeles. It was announced by Dean Thomas Forsyth Hunt of the State University College of Agriculture.

The contests are said to have marked influence in improving the quality of milk. Los Angeles Health Department received the banner for having the highest scoring entries of milk and cream exhibited at the National Dairy show held in Chicago last October. Dairymen supplying the City of Los Angeles received the four first places in the milk cream classes at the National Dairy show.

NEW ROAD PLAN IS OFFERED BY FINLEY

(Continued from page one)

one member from each supervisorial district selected to make a careful investigation and report recommendations to the whole committee. The report of the subcommittee was filed and it was before the meeting for action. It embraces roads totaling about 144 miles.

The concrete action of the meeting was the adoption of a motion offered by Supervisor T. B. Talbert that the report of the subcommittee be accepted as to roads designated, but that some of the proposed roads be reduced to 16 feet in width and others improved by the use of decomposed granite, the purpose being to reduce the cost sufficiently to bring the total within the bond limits of the county. This is the recommendation that will be reported to the Associated Chambers at Brea tonight.

The cost of improving 144 miles under present-day prices would require an issue in excess of the remaining credit of the county, the limit being 5 per cent of the assessed value. W. T. Newman, of Huntington Beach suggested the use of decomposed granite, reciting his experience and observations of such roads in Arizona, which he declared to be almost equal to the paved highways, with the pulling grade less than on the pavement.

Great Advertising Value
All who spoke on the matter said that they wanted the county to build just as many miles of good roads as it could, for they are of inestimable advertising value, aside from the benefit and pleasure derived from their use.

"I believe we should build the full amount possible under a \$2,500,000 bond issue," declared Chas. Eyra-broad of Anaheim. "I believe we can carry an issue of this size easier than one for a less amount, because it would make possible the improvement of roads in every section that would satisfy every one. I don't know where we could cut any of them out. The committeemen have spent a great deal of time and have tried to be fair. If we build roads now, we who are here can enjoy them. If we wait for a time, we cannot."

"We can build with the present valuation and when we have completed the system, the 20 cents additional tax we will have to pay will be about absorbed possibly by the 40 cent tax rate we now pay through the less cost of keeping up the paved roads over the dirt roads. The dirt roads will be used less, because people will drive miles out of their way to get onto the pavement, and the cost of upkeep of the dirt roads will be very materially lessened. It will be money saved to the taxpayers if we vote \$2,500,000. A complete paved road system would be the biggest advertisement the county ever had."

Must Build Bridges
Supervisor Finley's plan was not discussed at any length, for it was offered as a suggestion, the business before the meeting being consideration of the report of the committee. The announcement of Talbert that the county would have to build the bridges on the coast boulevard, with the approximate cost unavailable because the highway commission's plans are not known, and intimation that the supervisors have the erection of a Hall of Records in contemplation, brought out very clearly that the full amount of the remaining bonding credit of the county can not be devoted entirely to good roads.

The credit is about \$2,750,000. Finley gave a rough estimate of \$600,000 as the probable cost of the bridges necessary for the coast boulevard. The amount might be less or it might be more, under plans the highway commission might adopt.

Chairman D. Eymann Huff reported that the directors of the Farm Bureau had passed resolutions recommending that the county vote \$1,500,000 bonds for new roads and \$500,000 for repairing present paved roads.

PAVING ACCEPTED

On recommendation of County Surveyor J. L. McBride, A. G. Wright's paving contract at Placentia today stands accepted by the board of supervisors. The streets improved were Olive, Center and Walnut.

\$20,000 GEM ROBBER CAUGHT IN 5 MINUTES

LOS ANGELES, Dec. 10.—Five minutes after a man giving the name of L. W. Zickrick of Seattle, held up the Simmonds Diamond Shop on West Fifth street this morning, getting \$20,000 in diamonds, he was captured by Traffic Officer Kegley who had given chase in a commandeered automobile.

"I have just contracted an incurable disease," read a note which Zickrick thrust in the hands of Sebastian Simmonds, proprietor of the diamond shop as he walked up to the counter. "Give me \$4,000 in currency or I will kill you and then myself."

Simmonds looked up to see Zickrick's gun close to his face. He gave Zickrick \$20,000 worth of diamonds and Zickrick boarded a street car. Simmonds notified the traffic officer who started in an automobile and overtook the car.

400 REBELS SURRENDER

NOGALES, Ariz., Dec. 10.—Fortino Asuqui, one of the rebel chieftains of Mexico has surrendered to Carranza forces with 400 of his followers, including seven "generals" according to advices reaching the border here.

A delicious luncheon consists of thin bread and butter spread with pimiento cheese, and served with a green salad.

NUMBER MAKING INCOME RETURN HERE IS 850

Postmaster Overshiner Posts Names Who Sent Statements to Carter

No less than 850 men and women who get their mail through the Santa Ana post office have filed this year statements of their incomes.

A list of the names of these 850 men and women has been received by Postmaster Overshiner, and was this morning posted on the bulletin board at the Santa Ana post office. Similar lists are sent to post offices all over the district.

The list posted here contains the statement that supplemental lists may be sent later. It is understood here, however, that the list as posted is practically complete. The list does not show the amount of income of any person whose name is posted. Neither is the tax shown.

MAKE VACATION THREE WEEKS IN LENGTH

School Board Endorses Action of Girls' League on Regulation Dress

At a meeting of the Santa Ana board of education yesterday afternoon, the Christmas holiday period for the schools was made three weeks in length. Schools will close Friday of this week and will take up again on January 5. Teachers must attend institute during the week of December 15-19.

When the school calendar was adopted several months ago, it was agreed that school should start its after Christmas sessions on December 23. School Superintendent Cranston stated to the board yesterday that with New Year's Day breaking the week and a strong demand for no school on the Friday after New Year's, he believed the advisable thing to do was to extend the Christmas holidays to three weeks and to make the closing date for the schools in June one week later than scheduled. The suggestion met with unanimous approval of the board. That places the June closing date at June 11.

A resolution was passed by the school board approving the action of the Girls' League of the high school in the adoption of regulation dress for girls of the high school. The action of the Girls' League was entirely voluntary.

Gas Pressure Low
Superintendent Cranston reported that considerable difficulty is being encountered in the schools because gas pressure is frequently so low that janitors cannot get fire enough to keep the buildings warm. In one or two of the schools oil can be used. The question of fuel and the question of arranging for the use of oil as an emergency measure was left to the building and grounds committee for investigation and report.

Lester Archer, a graduate of the Fresno Normal School, was appointed as a teacher for Washington school, the sixth grade school. Cranston stated that in that school attendance has increased till the lowest number of students that any one of the seven teachers has is thirty-seven. Pupil from each of the seven classes will be taken to make an eighth class for the new teacher. The new teacher will also have in charge the physical training of boys at Washington school and Intermediate school. Archer was in army service for eighteen months.

OLD WORLD ALSO HAS GOOD ROAD PROGRAM

While to many America's appropriations for highways may seem formidable, to the ardent good roads agitator it is but a start toward a much-needed, long-delayed development, according to Jack Willey, Diamond tire jobber in this territory, who is "strong" for the proposed bond issue to extend Orange county's paved road system.

In comparison with populations, both England and France have made and are making more progress than has America. Congress has appropriated \$275,000,000—for expenditure up to and including 1921—for improvement of the 2,500,000 miles of roads in the United States. France plans to spend \$152,000,000 on her national system of highways, which comprise 65,000 miles. England has appropriated \$50,000,000 for expenditures on her 150,908 miles.

England has 239 citizens to every mile of road; there are 108 Frenchmen to every mile; and in America there are but 42 people to the mile. On the basis of these figures, the highway system of the United States will not equal the ratio of French mileage to area until we have 5,000,000 miles of highway, while 7,500,000 miles will be necessary to meet the English ratio.

30x3 Firestone Tires, \$11.60. 6,000 miles guarantee. Livesey's, 214 E. 4th street.

HOW WEAK WOMEN ARE MADE STRONG

Mrs. Westmoreland Tells in the Following Letter.

Harrison, N. Y.—"When my first child was born I did not know about Lydia E. Pinkham's Vegetable Compound."

Vegetable Compound and had a very hard time. I read in the newspaper about the Vegetable Compound and when my second child came I took it and was well during the whole time, and childbirth was a hundred times easier. Ever since then I have used it for any weakness and would not be without it for the world. I do all my work and am strong and healthy. I am nursing my baby, and I still take the Vegetable Compound and keep a woman in good health. You may publish my testimonial for the good of other women, if you choose to do so."—Mrs. C. WESTMORELAND, Harrison, N. Y.

Women who suffer from displacements, irregularities, inflammation, ulceration, backache, headaches and nervousness should lose no time in giving this famous root and herb remedy, homesick doughboys visited the same spot. After a moment of silent awe, one spoke up: "My God, Lafayette, we're still here."—American Legion Weekly.

TODD, HAYDEN STEP UP WITH GAS COMPANY

Hayden Becomes District Manager; Todd Supt. of Fuel Supply Co.

A business change of interest to thousands of Orange county people, whereby two well known and popular members of the Southern Counties Gas Company, formerly receive promotions, has just become effective here and previous unofficial reports were confirmed today by announcement from the head office. In the transfer, S. W. Todd, who was formerly gas manager at Anaheim and more recently has been Orange county district manager with offices at Santa Ana, becomes general superintendent of the new Industrial Fuel Supply Company, and J. C. Hayden, for four years commercial agent of the gas company here, succeeds Todd as district manager.

Both of these men have made many friends throughout the county during their service with the gas company who will rejoice at their deserved advancement to more important duties. Todd is one of the oldest employees of the Southern Counties Gas Company in point of service, and it was largely through his efforts that the meter and automobile repair shops of the company were established in Santa Ana on East First street. He has been located in Santa Ana for the past seven years.

To Conserve Natural Gas
The recent development of oil and gas in the Placentia district made it necessary to provide some means for the conservation of the natural gas which will ultimately be produced in that field. A substantial portion of the gas developed is required by the various oil companies for their own use in drilling and in refineries and pumping stations, and only the surplus gas is available for public use.

The Industrial Fuel Supply Company was organized for the purpose of collecting the natural gas produced by the various companies in the Placentia district and elsewhere in Southern California, and after supplying the various oil companies with sufficient gas to meet their own requirements, to supply the surplus to companies engaged in distributing gas to the public. The operations of the Industrial Fuel Supply Company are expected to result in increasing the amount of gas available for ultimate consumption by the public in Orange and adjacent counties.

Will Spend Huge Sum
The Industrial Fuel Supply Company will expend, within the next few months, approximately \$400,000 in the installation of gas transportation lines and compressor stations in the counties of Orange and Los Angeles.

The construction and subsequent operation of these lines will be under the direction of S. W. Todd of Santa Ana, whose headquarters will be at Anaheim, in room 318 First National Bank building, and his title with the Industrial Fuel Supply Company will be that of general superintendent.

FOREST MEN ARE TO STUDY AERONAUTICS

(From the Fly Leaf, published at March Field.)

Summary reports of airplane forest patrol operations as employed through the past summer has convinced Uncle Sam that such operations are worth while. In fact, to such an extent that it is now proposed to give forest rangers a course of instruction in theoretical and practical aeronautics, all of which will tend to improve the aerial method of saving national forest reserves.

During the 1919 season six patrols were maintained, 17 ships operating daily, two from Rockwell Field, San Diego; five from March Field, Riverside; four from Mather Field, Sacramento; two from Red Bluff; two from Fresno and two in Oregon. In all 235,724 miles were covered in 2,872 hours and 4 minutes actual flying time. Five hundred and seventy fires were reported.

Inauguration of this aerial course for rangers will provide for a class of sixty students who will be quartered on the Post and during a four weeks period go through an intensive training period much similar to that maintained for men of the military establishment. Commissioned officers of the air service will act as instructors in radio, map reading, photography, meteorology, pin pointing, map sketching and photographic interpretation.

Students will attend daily lectures on airplanes, construction and their limitations; what can be expected of a pilot, his difficulties, etc.; what constitutes a good landing field, and in addition will receive practical instruction in observation work from the air. Recommendations covering the above have been forwarded to Lydia E. Pinkham's director of air service for approval.

Apparently, a little art education would not be amiss among our country proof readers. One rural sheet says: "Last night the pastor took as his subject that well known picture, 'The Last Supper,' by Dr. Vinci." Another informs us that "The redos of the altar is composed of seven gilt panels of Fra and Jellico's angels."

A third newspaper, reviewing the performance of a visiting orchestra says: "Among the pieces played was Grieg's 'Ass's Death.'" This must be a companion piece to the tune the old cow died on.—Boston Transcript.

Spoken With Feeling.
The famous speech at the tomb of Lafayette attributed to General Pershing is still in the minds of Americans. Last week a crowd of homesick doughboys visited the same spot. After a moment of silent awe, one spoke up: "My God, Lafayette, we're still here."—American Legion Weekly.

CAN BE SINCERE AND NOT SHOUT IN CHURCH

Proper Life Will Testify Loud of Christian In His Own Neighborhood

"A man who walks with God and lives a meek and holy life may never shout loud, but his life will testify loud in the neighborhood where he lives," declared Dave Hill, lumberjack evangelist, in his sermon at Zion church last night. Another big audience greeted the revivalist.

Here are some of the pointed statements made during the discourse on "The Unpardonable Sin": "If a man who has been converted and made partaker of the Holy Spirit, should turn back into sin, and impute the work of the Holy Spirit to the devil, this is blasphemy against the Holy Spirit, and is unpardonable."

"Sometimes the man that yells 'Amen!' the loudest, while the preacher is preaching, is the one that the truth is hitting the hardest. That thing in your life which keeps the Holy Spirit out of your heart will keep your soul out of heaven."

"If a man is walking with Jesus, I do not believe he will walk down with Him and blow tobacco smoke in His face. You will never get one thing that God's mercy offers you until you do what God's justice demands of you, for His mercy never does away with the demands of His justice."

ALUMNUS GIVES PUPILS MUCH GOOD ADVICE

Address Is Delivered at High School by Rev. Willsie Martin

Reminiscences featured an address given at the assembly of students of Santa Ana high school yesterday by Rev. Willsie Martin of Hollywood. Rev. Martin graduated from the high school in 1895 when it was the only high school in the county and was housed on the upper floor of the school building at the corner of Church and Sycamore streets. Rev. Martin, after graduation, went to the University of California and for that university against Stanford won the Carnot medal. He

was taken to the high school yesterday by Charles F. Heil, who was in the same class at high school with Rev. Martin.

In opening his address at the high school yesterday, Rev. Martin said that it was fifteen years since he had visited Santa Ana. Many changes had taken place.

"The Ship that Found Itself," by Kipling, was used by Mr. Martin in illustrating the necessity of finding one's self. "The next thing to do," said he, "is do the important thing. One important thing right now is for you to help put over the bond issue."

"Men used to tramp across the country, later burros, mules and horses were used, then Studebaker wagons, and now the automobile. Keep up with the progress of the times."

When Rev. Martin took his first ride in an automobile he said he was frightened to death when traveling at the rate of ten miles an hour. In a few years while traveling to Yellowstone Park he took off his hat, said "Let'er go," and they went at sixty per. This illustrates the speed with which time travels.

The tale of a young man who took a girl home one night and was heard to say, "Susie, may I imprint a kiss on your wrist?" and her answer, "No, Charlie, it would be out of place," caused much amusement among the students as the young man is well known here. The real name of the lady was not given.

The importance of putting the bond issue over was explained by J. L. McBride, president of the school board. Plans for the new improvements were shown and talked about. The lower floor will seat 900, the balcony 450 and the stage over 200. Adjoining, on each side, will be a room.

The gymnasium will be east of the boys' athletic room, and a room will be added to the school building. That the students should go home and explain the absolute necessity of these improvements was urged. McBride said, "Though we are proud of our school now, we will be doubly proud later."

Clarence Brown announced the basketball program as far as planned. A football game with the American Legion will be played Christmas day. This will be a good game as many of Santa Ana's alumni men will play.

**TRAVELER CAN OBTAIN
ENGLISH HOTEL ROOM**

LONDON, Dec. 10.—Somebody has pointed out that there is a way to get rooms in hotels, even in the present overcrowded condition. English common law holds that the inn keeper exists primarily to serve travelers and he is bound to accommodate them as long as he has room. A person who occupies a private suite of rooms for a considerable time is not a traveler and could be turned out for a night if a traveler should fight it out to the bitter end. But the process would be dilatory and costly.

**WALNUT COVER
CROPS**

Next year we hope to have some genuine Hairy Vetch for cover crop seed. It is vastly superior to the Oregon or Purple Vetch, and we firmly believe will prove of great value to California orchardists.

This season the best cover crop seed available, in our opinion, is Scarified Melilotus seed. We still have a limited stock, and will be pleased to show same and explain its many merits to interested parties. Excellent results last year were attained through plantings made in late February. Drop in and look at our seed.

The Store of the Christmas Spirit

12 More Shopping Days

In selecting your Christmas gifts, select something useful—your choice will be greatly appreciated—more so this year than ever before—merchandise is so high and difficult to secure. We are showing a fine line of seasonable merchandise that will make unusually attractive and useful gifts for Christmas. We offer a few suggestions:

Silks and Velvets

SILKS AND VELVETS are gifts that will be appreciated—gifts that are useful and practical.

Silks for waists, dresses or skirts; Mezzaline, Taffeta, heavy Soft Satin, Crepe de Chine, Crepe Meteor, Georgette Crepe.

VELVETS of every color and quality.
Silk or Mohair Plushes for Stoles and Coats.
Silvertone and other Worsted Coatings.
Worsted Dress Goods, Fancy Kimona Crepes or Flannelettes.

Shoes and Slippers

SHOES for men, women and children.
Ladies' Felt Slippers of every kind and color.

Hosiery

Give Silk Hosiery and you are sure to satisfy. We are showing a fine line of Silk Hosiery, in a variety of colors and qualities.

Ready to Wear

Ladies' Ready To Wear Waists—in Lingerie, Georgette Crepe and Crepe de Chine.
BATH ROBES—a large assortment, ready to wear, \$5.00 to \$7.50.
Ladies' Crepe and Flannelette Kimonas.
SILK PETTICOATS in a large variety.
SMOCKS, for ladies, a beautiful line of hand embroidered garments.

Useful Gifts

Knitted Toques and Tam O' Shanters.
Silk Plush, Corduroy and Velvet Tam O' Shanters.
Worsted Toque and Scarf Sets for ladies and children.
Middy Blouses for ladies and children.
Worsted and Silk Sweater Coats for ladies and children.

Gloves

Every woman likes to receive a pair of Gloves for Christmas. Real Imported French Kid Gloves in Black, White, Brown or Gray.
Ladies' Silk Gloves, black and white.
Ladies' FLOSETTE Gloves in Black, White and Gray.
HANDKERCHIEFS in a great variety.
RIBBONS of all kinds, colors and qualities.
YARNS in all colors.
NECKWEAR for ladies in the newest styles.

Hand Bags

A gift that is always wanted—a handbag or purse. We are showing a large line at reasonable prices.

Umbrellas

We have a fine line of Umbrellas for Christmas Gifts. They are always acceptable—they are useful and lasting.

FOR THE TABLE

Japanese Table Cloths and Napkins.
FANCY TOWELS—a large line at reasonable prices.
Napkins—in a variety of sizes and prices.
TABLE DAMASK.

BLANKETS AND SPREADS

Beacon Bath Robe Blankets, Beacon Indian Robes, Handsome Plaid Bed Blankets, Fancy Baby Crib Blankets, Fine White Bed Spreads.

LIBERTY BONDS

Liberty Bonds have been going
down lately in value—or rather, in
market price. The decline has been
more rapid than ever before, and
has been especially noticeable be-
cause it followed a period of slow,
steady rise.

Why the drop? Many reasons
are given, but the big, obvious rea-
son is simply that great numbers
of people, all at once, have wanted
cash more than they wanted bonds.
To get the cash, they sell the
bonds, and the dumping of so large
a quantity on the market at one
time naturally forces down the
price. If nobody were selling, they
would be quoted higher right along,
until all the issues went over par.

Why do people want the cash
rather than securities which are the
safest in the world, and among the
most profitable?

Too often for one of two reasons.
Either they want to invest the
money in something else that is far
less safe, but promises a larger re-
turn; or else they want to "blow
in" the money.

There are exceptions, of course.
Many people are obliged to let their
bonds go in order to meet debts, or
make payments on sound invest-
ments—buying homes, for example.
Such disposal of the bonds is legiti-
mate, and beyond criticism, even
though parting with them is to be
regretted. But certainly people in-
vite criticism, and also pity for
their folly, when they throw away
hard-earned government bonds in
speculation or extravagant living.

But Liberty bonds are good things
to hang on to. A local banker when
asked a few days ago as to whether
or not now is a good time to sell
Liberty bonds replied that banks
and others who know financial
values are holding on to their Lib-
erty bonds.

That is a bit of information over
which the owner of Liberty bonds
might ponder before parting with
his bonds.

COST OF PROHIBITION

There are people who profess to
be scandalized by the cost of pro-
hibition. It appears that it is go-
ing to cost at least \$4,000,000 a
year to enforce it. There will be
about \$330,000 a month and \$11,000
a day going out of the federal
treasury, "just to keep the country
dry."

If prohibition can really be en-
forced at this price, it will be a bar-
gain. True, it goes against the
grain of many taxpayers to have
this expenditure on top of the de-
ficit made in the public treasury by
the loss of liquor taxes through this
same prohibition. Liquor taxes
and saloon licenses altogether prob-
ably amounted to half a billion dol-
lars. That is gone. But let it not
be forgotten that that half-billion
was not a miraculous gift. It came
out of the liquor traffic, and by that
traffic was passed on to the con-
sumer, and so came ultimately out
of the pockets of the citizens—
very largely the same citizens who
are now kicking about its being
out.

And the liquor traffic altogether
is said to have taken a toll of \$2-
000,000,000 or \$3,000,000,000 a year
—all that money poured down peo-
ple's throats, and most of it cer-
tainly doing more harm than good.
To this might be added all the in-
direct cost, difficult to trace, of
crime, disease, poverty and general
inefficiency due somehow or other
to alcohol. The total might run up
to several billions a year.

The country's getting off easy
with that \$4,000,000.

STOP ROCKING IT

In this book, "Crisis and Depres-
sions," ex-Senator Theodore E. Bur-
ton specifies seven indications
which ordinarily precede a financial
crisis and give warning of the ap-
proach of a period of industrial and
commercial depression. In a recent
issue of the World's Work those
seven indications are taken up
separately and compared with ex-
isting conditions. Every one of
them is present today to some ex-
tent. But the outlook is not sum-
med up as dangerous, because new
and hopeful elements have entered
into the situation.

The financial boat is rocking vio-
lently, but it is a better boat than
we were ever in before, said the
writer. There are reconstruction
demands which tend to steady con-
ditions, and there is a new system
of banking machinery which seems
to make the avoidance of panic not
only possible but probable.
There is, nevertheless, occasion

for every citizen to think seriously
of his own part in steadying or up-
setting the boat, and to make sure
that his own life preservers are in
good order.

Two of the "indications" which
are much in evidence today it is in
the power of any money-earner and
spender to help check at once. The
first of these is "increasing ex-
travagance in private expenditures."
It is safe and right to buy neces-
saries as occasion arises, but it is
the duty of every buyer to spend
wisely and thoughtfully and not
without certain luxuries for a while
longer.

The second of these current indi-
cations is "the development of a
mania for speculation, attended by
dishonest methods in business and
the gullibility of many investors."
This is harder to get at, for people
seem to cling to their right to be
fools. All the old fake, get-rich-
quick schemes and countless new
ones have been working overtime
lately because so many simple-
minded folks have a little extra
money and some perfectly safe and
sound Liberty Bonds which they
cheerfully part with. There never
was a better time to give heed to
official warnings and honest advice
against the unscrupulous speculator,
and speculation itself. If men and
women would take care of them-
selves sensibly in these two regards
they would help greatly in the
larger work of the whole country in
taking care of the other problems.

Show Stability

Philadelphia Bulletin

The report of the controller of the
currency on the holdings of Lib-
erty bonds and Victory notes by
the national banks of the country
indicates the measure of contribu-
tion of the individual wealth of the
country to the government for its
war purposes that has hardly been
appreciated.

Only about \$800,000,000 of the
Liberty bonds, or less than 5 per
cent of the entire issue, remain in
the ownership of the national banks,
and only nine hundred million more
are held as collateral. This means
that over \$12,000,000,000 of the as-
signed issue of the Liberty bonds
have been bought and paid for and
are locked up in the strong boxes
of their individual holders. In the
case of the Victory loan but about
three hundred and eighty-five mil-
lions are now owned by the banks.
Of course, the flotation of the treas-
ury certificates of indebtedness
has been more largely a banking en-
terprise, but of this issue only
slightly more than half are now in
banking ownership. The figures, of
course, except banking institutions
outside the federal reserve, but they
are substantially indicative of condi-
tions.

The figures are an encouraging
marker of the general financial con-
dition of the country, demonstrating
that there is no extraordinary bur-
den of war financing now being car-
ried by the banks and no clogging
of the financial system of the coun-
try with a load of undigested war
securities.

Let's Go to Work

San Bernardino Sun

Premier Georges Clemenceau,
writing in reference to the recent
election in France and its results,
said: "And now let us go to work."

While the advice is of value in
France and may have been intended
to apply to the rehabilitation of that
nation, it is not less applicable to
America. In a few words he gives
a remedy for most of the ills of
which we have been complaining
and it is a prescription that is easy
to carry out, if there is a sincere
desire for recovery from the state
of bickering and grouch with which
a considerable portion of the popu-
lation has been afflicted.

If there is more work, there will
be less time for oratory, and with
less talking there will be more time
for thinking, and with more
thought the necessity for more work
will be apparent. The high cost of
living will remain to perplex us un-
less workers enter into the produc-
tion of those things necessary to
life.

Laws cannot produce wheat.
Somebody must plow and sow and
reap and thresh. Higher wages for
less work will not solve the problem
there is not production to supply
the demand. If there were as much
enthusiasm in getting to work as
there is in trying to avoid work our
difficulties would soon disappear.

All this is self-evident and ac-
knowledgeed, yet too many are of
the opinion that the necessity to work
with all the energy they possess
does not apply to themselves, but
to the other fellows. All through
the ages there has been effort to
discover some recipe for obtaining a
livelihood without giving good, hard,
honest work in exchange for it, but
all such searchers have failed.

"In the sweat of thy face shalt
thou eat bread" still stands as law,
and all efforts to circumvent it will
prove fruitless. If we are to have,
we must produce, and work is es-
sential to production. Clemenceau
voiced no new principle, but he did
call timely attention to the only
remedy that will get us out of our
troubles, if it is applied in a sane
and efficient manner.

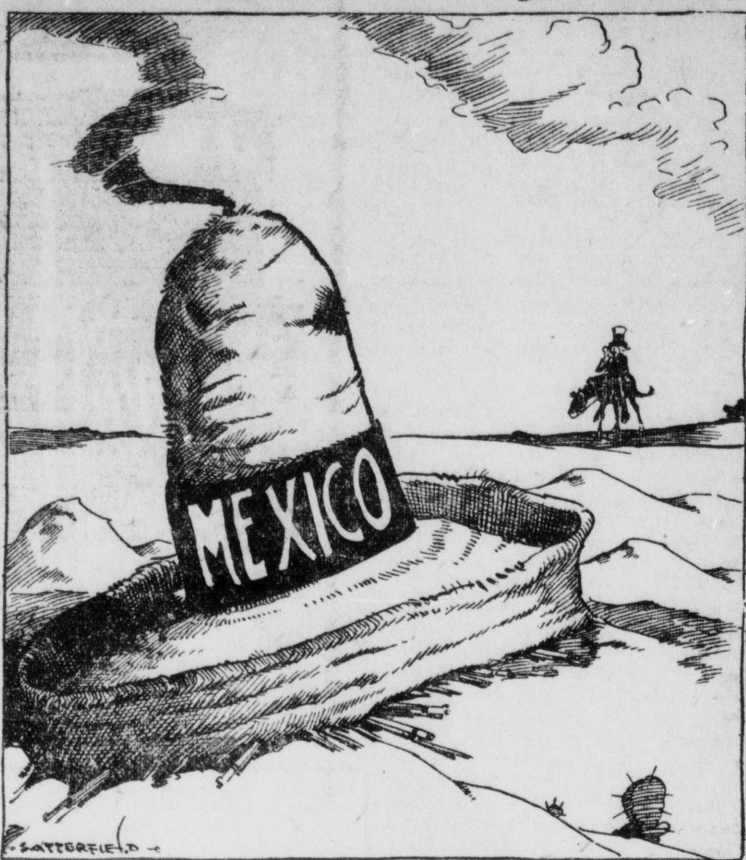

A Rich Man

Norfolk (Neb.) News

I wonder if you knew that one
of the richest men in the world lives
fourteen miles north of Norfolk,
right here in Pierce, Neb.? That
man is the writer. I am just a
common plug blacksmith, but, oh,
how rich! I go to my labors each
morning, work until noon, go to
dinner, return at 1 p. m. and work
until 6 o'clock. I enjoy the great-
est of all blessings—good health.
Rockefeller would give all he pos-
sesses in money or holdings for my
stomach, but he can't have it.

I have a most wonderful little
wife. She has studied to me twenty-
two years now, so I know she must
be a dandy to accomplish that. I
have a little home, a beautiful lit-
tle daughter, a son grown to ma-
turity and now in life's game for
himself. Rich. Why, man alive,
who can possibly be richer?
Then, to add to all the above

Smoldering

Purple Cows

(From Fresno Republican)

The youth, reaching out day by day for experience, finds that
of the things to be avoided, the most serious are the "purple cows."
How hard it is to learn that there are so many things that we would
"rather see than be one." Most of the time that is frivoloed away is
in running after things that we admire without finding in them any
real relation to our own natures. The British peer who marries a
chorus girl may not in fact be worth one-hundredth as much as the
lady, but she is for him a "purple cow," as in fact, he usually is for
her. If he could learn and she could learn, that it is quite sufficient
to see without having to be, it would be well for them both.

The difference between high ideals, based on latent capabilities,
and mere whims, born of a chance glitter, is hard to learn, but it is
one of the essential elements of education. In school it calls for the
constant correlation, by curricula and instructors alike, of seeing and
doing, of learning and putting into practice. The educational value
of manual training, the only real use for laboratory methods in the
lower schools, is to teach the students the practical application of
his own ideals, his own aspirations, his own dreams of usefulness
to himself and his associates. Much energy that was once being
wasted in idle speculation, is now being compressed into daily use-
fulness by this association of doing and thinking. It early elimi-
nates the "purple cows" from the fancies of the young man and the
young woman.

There is a sector across life, dividing things which we are from
the things that we understand and appreciate but will only have actual
experience of as across the footlights.

Worth While Verses

THE SONG OF THE SURF

As old as the world am I—
I sing as I reach the land;
Eternal am I, but die
And fall on the shining sand.

I rise in a happy breath,
I break in the glad some rush.
Then, rippling along to death,
Am lost in the sudden hush.

Adown in the depths with ships
I sink to my seaborn task
Of hushing the dying lips,
Replacing the living mask.

Aloft in my strong white arms,
I cradle the dear dead face—
Secure from the sea's alarms,
I find it a resting place.

I leap and I dance and flow
To gladden the hearts of men;
No matter how far I go
I always return again.

I wander from land to land,
Intent on my restless way
Obeying the great command—
And thus until Judgment day!

—Margaret Thorington Preston in New York Times.

GRINS AND GROANS

THE TERRORS OF RUM

We were shavers this morning by a
drunken barber, and he cut us
"There," we cried, "you see what
drink does."
"Yes," said the tonsorial demon.
"It makes the skin vera tender."
Centralia (Wash.) Chronicle.

THE MODERN CHILD

Governess—When did William the
Conqueror come to England?
Pupil—I don't know.
Governess—But doesn't it say in
your book, "William the Conqueror,
1066?"
Pupil—Yes, but I thought that was
his telephone number.—London Op-
inion.

Blessed Assurance!

A man stepped up to Henry Ward
Beecher one day and said, "Sir, I
am an evolutionist, and I want to
discuss the question with you."
Beecher—But doesn't it say in
your book, "William the Conqueror,
1066?"
Pupil—Yes, but I thought that was
his telephone number.—London Op-
inion.

A Rich Man

OBSERVATIONS

To cook noodles in the Chinese
way, fry in peanut oil and drain on
blotting paper.

When cooking very sour fruits,
add a very little salt and less sugar
will be necessary.

Cranberries placed in crocks and
covered with cold water are said to
keep a long time.

If you buy oranges in quantity,
store them (in their own papers) so
they do not touch.

If a fire is slow in starting, burn
a newspaper in the throat of the
chimney to warm the flue.

When making pastry, do not roll
the pin back and forth; roll it away
from you and then lift it.

If bayberries and pine cones are
being stored for holiday use, make
sure they are in cold place.

A Raleigh bell boy stole a trunk
containing \$75,000 worth of dia-
monds. No, he wasn't a piker. He
thought the trunk contained whisky.

Don't forget the play given tonight
by Saint Elizabeth Guild in the
Parish Hall of the Episcopal Church.
Maurice Phillips will sing, also the
church quartette.

See the pretty dolls in Mateer-
Gummel Drug Co. window—ten of
them will be given away absolutely
free—ask about them.

THE CHEERFUL CHERUB

The greatest wisdom
does not come
From simply learning
more and more—
It rather comes from
clearing out
All wrong ideas we
learned
of yore.
R. J. CANN

Caught on First Bounce

By S. E. Greene

Attorney General Palmer urges
people to wear their old clothes a
little longer. If he means the skirts
that some women wear, we second
the motion.

A party of Redondo Beach people
combined business with pleasure in
a trip to Torrance the other even-
ing by attending a revival meeting
and afterward visiting the glass fac-
tory.

Norwalk can now sleep better o'
nights, as her city council has just
purchased a hose cart and 500 feet
of fire hose, which the agent guar-
antees will reach to the top of any
building in town.

The Glendale News in its society
column records what it calls a "Full
Thanksgiving Day." In the opinion
of our humble appetite that is ex-
actly the kind of a day Thanksgiving
ought to be.

One of the owners of the Reming-
ton Typewriter Company is touris-
ting in Pasadena, says the Star-News.
That reminds us that the Reming-
tons have cut considerable figure in
our wars, past and present, either
with firearms or typewriters,—with
no reflections on the conduct of the
present Mexican muddle.

The fad of having flowers or fig-
ures painted on the bare backs has
struck Los Angeles ladies amidstips.
One lady had a lifelike snake
painted on her back, to display at a
social function. Good thing Adam
wasn't there. The combination of
the costume and the snake might
have made him think he was back
in the Garden of Eden with Eve and
he might have broken for the tall
timber.

The band stand used during the
two days' barbecue at El Centro cost
\$30,000, and was torn down immedi-
ately after the celebration. It was
made entirely of cotton bales, worth
\$200 or more a bale. "Old Black
Joe" and "Darling Nelly Gray"
ought to sound pretty good from
that kind of a band stand.

A lady who had slept fifty-one
days was to be awakened if possible
by a violin being played in her
room. If it was a beginner playing,
it ought to be a sure cure. We have
heard 'em where they would almost
wake the folks sleeping under-
ground.

MUST REGISTER BY
14TH OF DECEMBER

Sunday
Dinner
\$1.00

Served from 12 to 2, 5:30 to 7:30

With the election for \$110,000 high
school bonds set for January 13, reg-
istration and transfers for that elec-
tion cannot be made after Saturday
of this week.

Anyone who has not registered
since January 1, 1918, and who is un-
titled to register, has from now on
until the evening of December 12 to
Register.

Anyone who has registered and
who has moved from one precinct to
another, must be transferred on the
records of the great register. If the
transfer has not been made, it should
be made before Saturday evening.

Registrations and transfers will
be received at the office of the coun-
ty clerk at the courthouse.

MAGAZINE ARTICLE
ON ELEGANT TERN

"Notes on the Elegant Tern as a
Bird of California," is the subject of
two articles written by Dr. Joseph
Grinnell, associate professor of zo-
ology and director of the California
museum of vertebrate zoology in the
University of California, in the No-
vember-December issue of "The
Condor," a magazine of western or-
nithology. The Elegant Tern is one
of the several species of sea birds
which nest altogether to the south
of the United States and yet which
appear at certain times of the
year well north of California's south-
ern borders. Professor Grinnell's
other article is on "The Occurrence
of the Long-billed Curlew in North-
western California."

Harold C. Bryant, economic orni-
thologist in the University of Cali-
fornia museum of vertebrate zoolo-
gy, also contributes an article on
"Evidence as to the Food of the
Wood Ibis." R. M. Hunt, assistant
curator of birds in the California mu-
seum of Vertebrate zoology, writes
on "A Western Yellowthroat on the
University of California."

SHOWS U. C. FACULTY
ACTIVE IN RESEARCH

Evidence of the widespread re-
search activity of faculty members
of the University of California at the
present time was furnished today in
the issuance of a new list of publica-
tions by the University of California
press, showing that 32 papers on re-
search are now in press.

The publications are on the sub-
jects of agricultural sciences, Ameri-
can archaeology and ethnology, bot-
any, classical philology, education,
engineering, entomology, geography,
geology, history, mathematics, mod-
ern philology, pathology, philosophy,
physiology, psychology, semitic phi-
lology, zoology, bulletins of the seis-
mographic station, University of Cal-
ifornia Chronicle, Lick Observatory
bulletins, and publications of the
Lick Observatory, library bulletins,
memoirs of the University of Cali-
fornia, publications of the Academy
of Pacific Coast history and prize
essays.

KRYPTOK CHRISTMAS CERTIFICATE
With the Season's Best Wishes
Certificates for one pair of KRYPTOK
Glasses will make a most useful
and lasting gift. The certificate is
valid for one year and is redeemable
at any KRYPTOK store.

Give the sort of present that makes the joy of Christmas
a lasting one.
With the gifts on the tree, hang a KRYPTOK Christmas
Gift Certificate.

KRYPTOK
GLASSES
THE INVISIBLE BIFOCALS

KRYPTOKS (pronounced
Crypticks) have the appear-
ance of single-vision glasses.
There is no ugly line or seam
showing like that in old-style
bifocals. Yet KRYPTOKS
have two separate visions—
near and far. KRYPTOKS
end the need of two pairs of
glasses, and can be worn all
the time for all requirements
of near and far vision.
Our KRYPTOK Christmas
Certificate Plan makes it
easy to give a present that is
worth while. Come in and
let us tell you the particu-
lars.

Social Events

Jefferson P. T. A. to Entertain.

On Friday evening, December 12, the P. T. A. of Jefferson school will give a reception to the fathers of the pupils and it is hoped that a large number will be present for the program, as it is to be an exceptionally interesting one.

Percy Richards, organist of the Episcopal Church, lately returned from overseas, where he served four years as a British ambulance driver, will give an interesting talk on his experiences. Many of the boys who have returned from overseas service have favored with accounts of their experiences but Mr. Richards will be the first to tell of the hardships of the Ambulance drivers "over there."

A quartette, led by Mrs. Evangeline Sumner, singer in the choir of the Episcopal church, will give a delightful musical program, after which light refreshments will be served.

Jolly Taffy Pull.

Miss Hilda Schultz of East Seventeenth street was hostess at an informal taffy pull recently, at which the playing of games, candy making and music were the chief diversions of the evening.

One of the games, a peanut hunt, was won by Miss Frieda Jones. The consolation prize went to Miss Clara Appuhn.

The guests at the party came to the conclusion that girls can have just great times by themselves. This sentiment was endorsed by the following: Misses Clara Appuhn, Frieda Jones, Alice Frehrib, Edith Morgan, Louise Grochow, Amanda Jones, Josephine Grochow and the hostess, Miss Schultz.

W. C. T. U. Met Yesterday

The W. C. T. U. met yesterday afternoon at the home of Mrs. Fannie Lash, 220 Cypress street.

Mrs. Horton Palmer led very appropriate devotional services and all joined in the singing of "Wonderful Fence."

In the absence of the president, Mrs. W. S. Rose, the vice-president, Mrs. A. A. Jones presided.

The "Jubilee Drive" for the helping to make the world dry was the subject of the discussion.

Committees are working to help raise the quota. The different members are asked to take one collection in their congregations for this purpose. Several congregations reported good collections and other congregations will give reports later.

The subject on the program for yesterday afternoon was "World Prohibition," and was in charge of Mrs. W. B. Tedford. Mrs. Tedford told of the temperance campaign that is being made in London and of the harsh treatment given "Pussy foot" Johnson in his work in that city—how he lost one of his eyes at the hands of those out of sympathy with his work. Mrs. Tedford believes that this severe treatment will be the means of bringing the work closer to the people of London.

Miss Kara Smart Root, formerly one of the State W. C. T. U. officers, is doing great work in Japan, and will have an important part in making that country dry.

Mrs. G. P. Hill gave some interesting notes from the Union Signal along the line of making the world dry.

It was with deepest regret that the Union heard of the sudden death, by accident, of Mrs. Ann Colver, president of the Kern county organization. Mrs. Colver was a very prominent delegate at the recent state convention.

The next meeting will be held January 13 at the Congregational church.

St. Elizabeth Guild Play

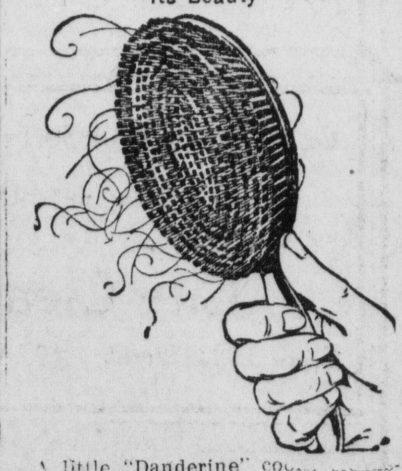

In the cozy parish house of the Church of the Messiah, the St. Elizabeth Guild of that church gave their clever little play last evening to the enjoyment of all present.

Very good taste was shown in the choice of a light plot, which made it possible for the cast to really assume the characters. This they did with perfect naturalness and no trace of self-consciousness.

Before the opening of the play the choir quartet, Mrs. Evangeline Sumner, Miss Beth Phillips, Chas. Wollaston and their leader, Percy Richards, blended their voices in two beautiful numbers, "Down in That Valley" and "Dear Old Pal of Mine," with Miss Margaret Stump.

QUICK! YOUR HAIR NEEDS 'DANDERINE'

Check Ugly Dandruff! Stop Hair Coming Out and Double Its Beauty

A little "Danderine" combats dandruff and makes the feverish, itchy scalp soft and pliable; then this stimulating tonic penetrates to the famished hair roots, revitalizing and invigorating every hair in the head, thus stopping the hair falling out, or getting thin, dry or fading.

After a few applications of "Danderine" you seldom find a falling hair or a particle of dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

A few cents buys a bottle of delightful "Danderine" at any drug or toilet counter.—Adv.

SUBMARINE GARDENS

Island Santa Catalina!
Its very name recalls
Delightful, gorgeous, ocean haunts,
Where slanting sunlight falls,
Revealing all the hidden shoals.
Replete with wonders rife!
The moods of the living things
Of under-water life!

The gardens of the water-sprites,
The thrones of gaudy fish,
The scenes where festooned seaweed grows!
In truth, most any wish
Imagination can conceive
For grace and elegance,
For delicate magnificence
Are here! but not by chance!

For who can see this rich display
Of beauty so refined,
And say it grew to loveliness
Without a Master Mind?
And who can gaze on glories strewn
Beneath the ocean bubble,
And for one moment disbelieve
That they were formed by God!

—(Frederick M. Steele, in L. A. Times.)

At the piano, Maurice Phillips then sang a rollicking song of good cheer, "Gypsy John." This brought an encore, "A Soldier's Soliloquy," a clever little marching song, composed by Clarence Gustlin.

The play, "Aunt Matilda's Birthday Party," then opened. The setting was a very realistic bachelor girl's apartment.

The following is the cast:
The real aunt Matilda—Miss Helen Phillips.

Other aunt (Mrs. Sparling)—Miss Ruth Richards.

Aunt Matilda's niece (Rose)—Miss Harriet Wollaston.

Other aunt's niece (Mrs. Nubold)—Miss Beulah Mennen.

Mrs. Sparling's maid (Tiny)—Miss Louise Robertson.

Aunt Matilda's maid (Jane)—Mrs. Eleanor Harms.

Bachelor girls—Misses Jean Battersby, Emma Kryhl, Elsa Reuter, and Mrs. Katherine Stinson.

Director of the play—Miss Alice Parker.

The plot dealt with the amusing predicament, Aunt Matilda's niece, Rose, found herself in when her aunt that she would pay her a visit, and that she would be just eighty years of age on the day of her arrival.

Needless to say that Rose, assisted by the bachelor girls, made elaborate plans for the old lady's reception. A large birthday cake was made and adorned with symbols for eighty years. Each bachelor girl was in a hurry and insisted upon doing something for the aged aunt.

About the time that Aunt Matilda was expected, Mrs. Sparling—a stylish woman of middle age, whose name was also Matilda—arrived with her maid. She had made a mistake in the apartment and was really on her way to pay her nephew's wife, whom she had never seen, a visit. The humor of the play was brought out at this point.

The welcome speech given by one, suitable for a woman of eighty years, was very amusing. The girls all thought that she looked remarkably young for her years, but did not suspect that they had made a mistake.

Of course the real Aunt Matilda arrived and everything came out all right at the end.

After the play, Maurice Phillips sang two clever songs, "Never Go to Sea on Friday" and "A Corporal's Ditty."

The evening's pleasing entertainment closed with the singing of two beautiful songs by the choir quartet, whom she had never seen sent word "We Meet Again," and the selling of light refreshments. A substantial Christmas fund was taken.

Tustin W. C. T. U.

The W. C. T. U. of Tustin will hold a Silver Medal contest in the school auditorium Friday evening, January 12th.

Country Club Dance Tomorrow Eve

The annual Christmas dance of the Orange County Country Club will be given at the clubhouse tomorrow evening. It was to have taken place last Thursday evening, but was postponed on account of the rain. It will be given this time, rain or shine. However, it is thought that the weather will be clear.

W. R. C. Club Enjoys Day

Thirty-seven members of the W. R. C. Club went to Laguna yesterday and were charmingly entertained by Mrs. Nellie King.

Holly was effectively used in carrying out the Christmas decorations.

The hostess served coffee and Christmas candies. Each member took a basket lunch. The afternoon was spent in social conversation.

Next Friday afternoon is the time set for the W. R. C. tea at the G. A. R. hall. Mrs. Tillie Moesser will be chairman of refreshments.

Bridge Hostess Yesterday.

Mrs. J. P. Baumgartner was hostess yesterday afternoon to the Bridge Club, of which she is a member. The Christmas note was introduced in the spicy red carnations that brightened the room, and red Christmas candles centered the tables when refreshments were served.

To Entertain Catholic Ladies

The children of the Logan Mexican school will give a program for the Catholic ladies Friday afternoon at 1:30 p. m. The Christmas "doings" will also be enjoyed by the children, as school closes Friday.

Music Section of Ebell Meets

Members of the Music Section of the Ebell Society met with Mrs. Arthur Lyon, 809 Bush street, Monday afternoon, and gave a special Christmas musical program instead of the customary program from

American composers only.

Mrs. Phillips had charge of the afternoon's selections.

The first two numbers were "Silent Night" and "Holy Night," by a trio, Mesdames Winbiger, Hayes and Seaton, with Mrs. A. J. Padgugham at the piano.

Mrs. Crose then read an interesting paper on the history of Christmas music from ancient to modern times, in different countries.

Mrs. Hayes next gave a beautiful vocal solo, "Night of Nights." Mrs. Winbiger followed this with a vocal solo "Dream of Bethlehem," with a violin obligato by Cecil Birtcher, accompanied by Mrs. Padgugham. An encore, "Christmas Morn," was then given.

Miss Leonora Tompkins then favored with two piano solos, "The Prophet Bird" (Schumann) and "Andante in F major" (Beethoven). Mrs. H. M. Sammis closed the delightful program with a vocal solo, the aria, "Rejoice Greatly"—from the Messiah.

The members of the section then made plans for the giving of a musical program for the inmates of the county hospital sometime before Christmas. The date for this will be announced later.

At yesterday's meeting two were admitted to membership, Mrs. Harry Kendall and Mrs. John Wehrly.

Noted Spaniard Coming

Such a ripple as has gone through society and clubdom, Ibanez—Vicenti Blasco Ibanez—is to come to America. He is to write impressions of American women. And while he is to arrive in New York, of course, the young Spanish writer, who has thrilled two continents, will reverse tradition and give the metropolis but a glance on his way westward.

Los Angeles on account of its many Spanish families of note perhaps, is to be the first place that Ibanez will visit. Then he will tour the West.

Ibanez, it is said, believes that contact with society is the only method of knowing a country. But the way Ibanez knows a country—well the truth is he is very observing and not afraid to say what he thinks.

Raymond Blathwayt, the English writer, told a group of Hollywood matrons not long ago that reading the books of a nation instead of making a pilgrimage to the country is the only proper way to know it. The speaker declared that one could know America for instance better by reading George W. Cable for the South, Mary Roberts Rinehart for New England, O. Henry for New York, than by living for years in any of the communities.

Three Birthdays Honored

Mr. and Mrs. A. E. Chapman, 1061 West Third street, entertained last evening at a six o'clock dinner in honor of their son Frank's twenty-first birthday and the birthday of Edgar Chapman of Orange, whose natal day also falls on the same date.

Decorations in the house and on the table were of roses and violets—a rose centerpiece for the table and violets scattered on the table. Many pretty and useful gifts were received by the honor guests, one of the most prized being a watch and chain received by Frank Chapman.

A. E. Chapman's birthday, which follows a week later, was also remembered at the dinner.

Those present beside the ones already mentioned were Mr. and Mrs. S. J. Chapman, Mrs. Edgar Chapman and sons, Raymond, Harold and George Chapman.

Maybe you don't quite know what is your personal taste in tea.

Here's a good way to find out:

Try one flavor after another of Schilling Tea, and get your money back from your grocer on each, until you have found the flavor you like.

We pay the grocer. So don't worry about that.

There are four flavors of Schilling Tea—Japan, Ceylon-India, Oolong, English Breakfast. All one quality. In parchment-lined moisture-proof packages. At grocers everywhere.

A Schilling & Co. San Francisco

PERSONALS

Mrs. H. W. Hinze spent today in Los Angeles.

Mrs. Leora Criddle was a morning passenger to Los Angeles.

W. L. Deimling made a business trip to Los Angeles today. Miss Ethel Morrow was a Los Angeles visitor yesterday.

Senator Porter McCumber of Nebraska, Mr. and Mrs. Cyrus Branton and niece, Miss Hazel Sprague, recently arrived from Clear Lake, Iowa, for a visit with Mrs. Branton's father, Bruce McCumber, of this city.

Mr. and Mrs. A. F. Zaiser, who started on a motor trip to San Francisco a few days ago, were unable to go beyond Santa Barbara on account of the rains. They returned home with the intention of making the San Francisco trip at a later date.

A. P. Dodge is one of the latest Santa Anas to move to the beach for the winter, having just taken a small apartment at East Newport. For a year and a half Dodge has lived in Santa Ana, at Hickey and Ross streets. He is the father of John J. Dodge, apple grower at Harper.

Herman Zabel, regular supply sergeant for the 30th Engineers, stationed at Schofield barracks, Honolulu, is spending a month's furlough in California. Sergeant Zabel will visit County Recorder Miss Justine Whitney and her mother during his furlough. He was a friend of Ray Whitney also.

L. W. Woodroof arrived from Texas Saturday for a visit with his brothers, J. D. Woodroof of this city, J. F. Woodroof of Brea and sisters Mrs. R. C. Sawyer, Mrs. R. O. Garrison and A. E. Honey, all of Orange. Mr. Woodroof's mother, Mrs. M. A. Woodroof, also lives in Orange and will be favored with a visit.

Mrs. Honey and Mrs. Sawyer recently returned from Texas, where they were called by the serious illness of one of their brothers. On Monday the party spent the day in Long Beach. Among the families, including twelve grand children and two children were Mr. and Mrs. J. D. Woodroof and two children of Santa Ana, Mr. and Mrs. J. H. Woodroof of Brea, Mr. and Mrs. R. C. Sawyer of Placentia, Ernest Sawyer, Mrs. R. O. Garrison and little son and Mr. and Mrs. A. E. Honey and two children.

City and County Briefs

Anaheim is to have a Chautauqua assembly next May. Through the instrumentality of the Board of Trade, which body has secured the requisite number of signatures, guaranteeing the necessary financial support, the Ellison-White syndicate will send its excellent course to this city next spring.

The Yorba Linda Citrus association has put in an order for a new washing machine which when installed will about double the capacity of the plant. The new equipment is made necessary by the growth of the association.

DEATHS

PERKINS—At her residence, 806 Spurgeon St., Santa Ana, Cal., December 10, 1919. Mrs. Fannie P. Perkins, aged 55 years, wife of W. W. Perkins.

She leaves a brother, Le Roy Parker, of San Francisco, and a sister, Mrs. B. S. Weed, of Orange. Services will be held at Mills & Winbiger's Mission Funeral Home, tomorrow (Thursday), Dec. 11, at 2 p. m. Cremation will follow in Los Angeles.

BIRTHS

LACY—In Santa Ana, Cal., Dec. 10, 1919, at their residence, 705 South Broadway, to Mr. and Mrs. M. B. Lacy, a nine pound son.

Eyes Make or Mar a Face

No matter how attractive a person's features may be otherwise a pair of weak, red, inflamed or twitching eyes will spoil the beauty of his face.

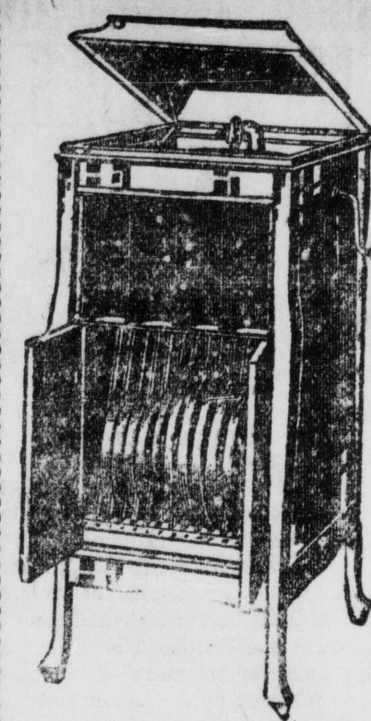

BUT a pair of glasses carefully fitted by "Loersch Service" will remove the cause of these eye conditions and make all lines of care and strain disappear as if by magic.

Don't let your eyes bother you—consult "Loersch Service" at once.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c.

You Can Tell Which People Have Iron in Their Blood—Strong Healthy, Vigorous Folks—

My Physician Says Ordinary Nourishment Will Increase the Strength of Nervous, Run-down People in Two Weeks' Time in Many Cases.

ONE glance is enough to tell which people have iron in their blood. They are the ones that do and dare. The others are in the weakling class. Sleepless nights spent worrying over supposed ailments, constant dosing with habit forming drugs and narcotics, and useless attempts to brace up with strong coffee or other stimulants are what keep them suffering and vainly longing to be strong. Their real trouble is lack of iron in the blood. Without iron the blood has no power to change food into living tissue and, therefore, nothing you eat does you good; you don't get the strength out of it. When iron is supplied it enriches the impoverished blood and gives the body greater resistance to ward off disease. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and energy simply by taking iron in the proper form. And this, after they had in some cases been going on for months without getting benefit from anything.

If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. There is nothing like good old iron to help you get color in your cheeks and sound, healthy flesh on your bones. But you must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good, otherwise it may prove worse than useless.

Nuxated Iron—Has been recommended for over a century as the most reliable and safe of all iron preparations. Unlike the others, it is a true iron compound, and does not irritate the stomach, make the blood, or upset the stomach. The manufacturers guarantee its purity and its safety to every purchaser or they will refund your money. It is designed in this city by good chemists.

CONFIDENCE IN AMERICA, MAN, GOD GROWS

Rev. Willsie Martin Speaks at Men's Brotherhood of Methodist Church

Rev. Willsie Martin, formerly a resident of Santa Ana, now pastor of the First Methodist church of Hollywood, came back from overseas with what he designates as "reinforced confidence" in America, in common men and in God. He so declared in a most interesting address delivered last night at the monthly meeting of the Men's Brotherhood of the First Methodist Church of Santa Ana.

Rev. Martin moved away from Santa Ana twenty-three years ago. His father came here in 1888 that his children might go to school. They lived on West Fifth street near the Santa Ana river.

Rev. Martin was introduced last evening by Charles F. Heil, who was a classmate of Martin in Santa Ana High School.

"Willsie was quarter on our football team," said Heil. "He was so small that he got through the other team's line easily. In those days the high school's goal line was never crossed. I might add as an afterthought that in those days we never played another school."

Speaking of his brother, Lieut. Leon Martin, who was killed in the Argonne, Rev. Martin said: "He died as a Christian, as a Methodist, as an American should who is privileged to die for liberty." Lieut. Leon as an artillery officer made the best record made at Ft. Sill during the war.

With Committee in France

Rev. Martin went to France as a member of Dr. Mott's committee of twenty-five. That committee went to make observations for the Y. M. C. A., that it might come back to America and campaign for the United War Works fund.

"I came back from overseas with my ideas and ideals reinforced," said Rev. Martin last night. "I had wondered if a republic could be adequate in a death struggle. I tell you that a democracy can make a finer fighting machine than any autocracy ever had."

The speaker reviewed the feats of the navy. He described the preparations that America had made in France for warfare. He said that it was the knowledge of what America had done and was prepared to do that made Germany call for an armistice.

"No country functions any better than our country," declared Rev. Martin. "I came back not an internationalist, but a better American. I believe in the League of Nations, not because I am an internationalist, but because I am an American. Through the league the spirit of Christ in America could reach out to all the world."

Rev. Martin cited instances of wonderful work done by soldiers. "I have seen the Holy Ghost in the hearts of my brothers," said he. "I have come back with a deeper love for the common men, just common men."

Vividly, Rev. Martin described the battles of Verdun, T. M. St. Michel and the Argonne.

"I don't believe there is anything impossible for the Americans when they will to do a thing," he declared.

"I came back with a reinforced faith in God," said he. "Why didn't Germany crush France early in the war? Because Germany was afraid of Russia. Russia was not to be feared, but God had put that fear in Germany's heart. God won this war."

"For me, there is but one flag, the Stars and Stripes, and that flag has in it just enough red for me, and may that flag forever wave over an idealism that sets the pace for the whole world."

The Men's Brotherhood of the last night elected officers for the ensuing year as follows:

President, A. J. Lasby; vice-president, C. F. Heil; secretary, J. A. Albright; treasurer, F. W. Weissman; chairman of gospel team, Dr. Kellogg; public forum, J. W. McCormac; social fellowship, C. A. Robinson; social service, C. M. Halderman; membership, F. P. Jayne; publicity, George Barrett.

HUNTER WITH BIG GAME

SHEBOYGAN, Wis., Dec. 10.—Otto Zwerg returned from a month's hunting in Wyoming with an 800-pound elk and a 400-pound Rocky mountain big horn ram. In company with his guide, Fred Braun, River-ton, Wyo., Mr. Zwerg travelled 30 miles with a pack train of burros and horses. The big game was shot 80 miles southeast of Yellowstone National park.

CHECK THAT COLD RIGHT AWAY

Dr. King's New Discovery has relieved colds and coughs for fifty years

It was an unusually high quality cold, cough, gripe, and croup remedy when introduced half a century ago. Not once in all the years since then has the quality been allowed to deteriorate. Its effectiveness in combating colds and coughs has been proved thousands of times in thousands of families. Taken by grownups and given to the little ones for the safe, sure treatment of colds and gripe, coughs and croup, it leaves absolutely no disagreeable after-effects. Get a bottle at your druggist's today. 50c and \$1.20.

Bowels Act Human

—function gently but firmly without the violence of purgatives—when you treat them with Dr. King's New Life Pills. A smooth, laxative that gets right down to business and gratifying results. All druggists—25c a bottle.

MORE HOMES IN BUENOS AIRES PLANNED

Nearly \$200,000,000 to Be Expended During the Expected Boom

By Lawrence S. Haas (United Press Staff Correspondent)

BUENOS AIRES, Dec. 10.—A building campaign, unequalled in scope in the history of South America, is soon to be started in Buenos Aires, if the predictions of American business and construction men here are successful. The construction slump of six years is expected to be followed by a wave of activity in the building line designed to relieve the uncomfortable house, apart-ment and office shortage, from which this city has been suffering for three years.

Unless American capital can be interested in investments in Buenos Aires real estate the financing will be done almost wholly by British and French interests, and it is predicted that building on a wholesale scale will be started as soon as British and French exchange once more approach the normal. It is not anticipated that American capital will cut a great figure in the building "drive" in which it is believed that the expenditure will reach at least \$200,000,000.

Buenos Aires really is "in a bad way" for houses and apartments. Construction has not kept pace with the constant influx of new residents during the past year. Rents have soared to unexpected heights.

Apartment houses have not yet gained great popularity with the native or the Spanish-speaking resident. Europeans and Americans are perfectly "at home" in them as long as they can manage to keep their minds off the rent they must pay. Few people are moving. The operation of changing domiciles is like the old children's game of "puss in the corner." When a family succeeds in getting an apartment and furnishing it, it is a case of holding on "until death doth them part."

Sub Let Apartments

Families who find it necessary to leave the country for as long as a year or two invariably sublet their apartments furnished—for a consideration that removes much of the substance from a comfortable income. For four and five room furnished apartments, \$200, \$300 and \$400 a month is asked and paid without a kick. In the very few apartment houses that have gone up in the past few years, every apartment was spoken for long before the building was completed.

Conditions are just as bad in one family houses. Much valuable space goes to waste—from an American or a European viewpoint—in these houses. The Argentinian must have his patio or garden which is located in the center of the house, bounded on two sides by the front door and the kitchen. It would be a task of many years to educate the people out of the patio idea, if it is ever undertaken.

Buenos Aires is liberally sprinkled with magnificent residences of palatial type and great dimensions. Some of these homes occupy more ground space than some of the larger hotels in New York City, and at least half of them are larger than the private homes of American millionaires on Fifth Avenue and elsewhere. It is a common practice for a member of a wealthy ranch owning family to build one of these houses and furnish it, then never live in it. Many of these houses stand, monuments to the wealth and prosperity of the country, typical of pride of their owners and representing a misapplication of scarce and still expensive building material and of labor, which, if employed in a less pretentious and more utilitarian cause would aid greatly in providing sheltering roofs for people in more moderate circumstances.

Values Much Inflated

Real estate values in Buenos Aires are inflated. Several years ago a great property boom boosted the price of real estate. Then the bottom of prices fell out, but the greater part of the property owners, who acquired their holdings during the boom still retain the boom-days' valuation and decline to accept a loss.

In the poorer districts there are blocks and blocks of dwellings, many of which are nothing more than miserable hovels. In these districts, although Buenos Aires is generally rated as a clean city, the sanitation has been miserable. Under the Irgoyen administration much has been done to improve these conditions, but they still exist pretty generally.

The modern office buildings of Buenos Aires can still be counted on the fingers of one hand. While office rent is not exactly exorbitant, it is almost impossible to obtain offices in the center of the city.

When building is resumed in earnest here it is believed that attention will be given to the lack of office space, and that the new buildings will be of the modern type, patterned greatly after the model of the American office buildings—minus the altitude.

For years there has been agitation for the construction of a great government edifice to house many of the departments which are now scattered about the city. It is generally conceded that there is no chance to put this project through during the present economy administration of President Irgoyen, but in a few years somebody is going to get the chance to bid for a \$25,000,000 job.

CONTINUE HEARING

The board of supervisors continued until January 13, at 2 o'clock a hearing on a petition to abandon the Cerritos avenue crossing of the Santa Fe right of way in the second road district. The petition was signed by F. C. Wilson, J. L. McBride, C. G. Stearns, J. B. Lockwood, J. R. Famler, J. H. Iman, Theo Lacy, Jr., C. E. Jackson, Nat H. Neff, William C. Jerome, Joseph M. Backs and T. B. Talbert.

PUNISHMENT OF 'REDS' URGED BY ELKS

Deportation of Disloyalists Advocated In Resolution of Lodge

Advocating, among other measures, the drastic punishment of all who belong to or who uphold the doctrines of such organizations as the I. W. W., and the Bolsheviki, copies of a resolution, adopted by the local lodge of Elks were forwarded today by Secretary W. W. Wasser to Governor Stevens, United States Senator Hiram W. Johnson, Congressman William Kettner, Assemblyman Walter Eden, United States Senator James Phelan and State Senator S. C. Evans.

The resolution, which was drafted by Exalted Ruler W. F. Diers and Secretary Wasser, reads as follows: "Be it resolved, by Santa Ana Lodge No. 794 of the Benevolent and Protective Order of Elks:

"That we view with deep concern the spread of disloyalty and of seditious sentiment promulgated by syndicalists, I. W. W.'s and the Bolsheviki;

"We believe that the time has arrived when Americans should assert themselves and drive from these shores all disloyal aliens, and adequately punish those who betray their country by disloyal acts. We hereby call upon the United States Congress to immediately enact a law providing for the summary deportation of every alien in this county who is a member of the I. W. W. or any other organization of like teachings and tendencies;

"That the law should further provide for the immediate cancellation of the citizenship papers of any naturalized citizen who shall affiliate with any such organization; and for drastic punishment of all persons who belong to or who uphold the doctrines of such organizations.

"We believe that no person should be permitted to issue or to circulate any writing or pamphlet which has for its apparent object the undermining of American institutions or the inciting of rebellion.

"We further demand that Congress forthwith appropriate sufficient money to carry forward properly and promptly the deportation of undesirable aliens. Be it further

"Resolved, that the entire membership (745) of this lodge does hereby tender its services to Governor Stevens for any assistance which the Governor may desire."

SOLDIER DIGS OWN GRAVE

TACOMA, Wash., Dec. 10.—Thomas Prescott, a Civil war veteran, was buried recently in the grave he dug the morning before at the Old Soldiers' Home at Orting. It is the custom of the Home to keep one grave dug in advance because the work is hard for the elderly men. Prescott spent the day in digging the grave. After returning indoors he became suddenly ill and died.

Have a Good Appetite

By Taking Vinol

It increases the appetite, aids digestion, transforms food into red blood corpuscles, muscular tissue, brain and nerve force, thus replacing weakness, nervousness and lassitude with strength and vigor.

Proof That There is Nothing Like Vinol

Scranton, Pa.—"I used Vinol for general weakness, poor appetite and loss of strength and flesh. At times I was simply too weak to work. Within ten days after taking Vinol I could see an improvement. It gave me a splendid appetite, I have gained in flesh and feel stronger in every way." —MRS. L. A. MEANS.

Jacksonville, Ill.—"I was weak, nervous, all run-down and had no strength or ambition to do anything. My doctor told me about Vinol. I took it and the result is I am strong and well again. I now look after my baby, do all my housework and feel like a new person." —MRS. G. H. LAMSON.

For all run-down, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

Your money will be returned if Vinol fails—

"FOR THE PEOPLE"

AGRI-GYPSUM

Gypsum, as applied to your land, will release bound-up elements that are valuable and essential as plant foods.

Authorities on soil chemistry and plant foods everywhere recommend and advocate the use of gypsum where the soil is pregnant with useful elements, but which, being combined with other elements, render them useless until released by the addition of gypsum.

Gypsum unlocks the soil, liberates nitrogen, potash, and phosphorus of the soil for the use of crops. Use gypsum as a "soil stimulant" on your truck crops as well as other crops.

For many years Gypsum (commonly called "land plaster") has been used by farmers and horticulturists with the same beneficial effects in every advanced agricultural country in the world.

Nitrogen is the most expensive of plant foods. Save the nitrogen in your manure by using gypsum on it as a preservative. (Every dollar's worth of gypsum applied to manure will save two or three dollar's worth of nitrogen.) The calcium and sulphur of the gypsum will go on the land with the manure and pay for the gypsum several more times.

Gypsum Is a Specific for Black Alkali

It transforms the harmful sodium carbonate of the alkali into harmless calcium carbonate.

Gypsum supplies the lime calcium in lime deficient in lime and also supplies sulphur which is a fertilizer.

A maximum crop of alfalfa requires 45.9 pounds of sulphur per acre per year which gypsum supplies.

Gypsum furnishes calcium and sulphur to crops. Both of these are necessary crop foods, and lime is deficient in many soils and sulphur is scarce in practically all soils.

California crops especially benefited by gypsum include melons, vetch, alfalfa, beans, peas, potatoes, rice, corn, legumes use much sulphur (gypsum is calcium and sulphur). Citrus and deciduous groves are benefited by the action of gypsum in liberating essential elements in the soil.

Buy Gypsum of the largest producer of Gypsum in the world and get it ground fine, and properly prepared. Inquiries as to what may reasonably be expected of Gypsum as it would affect your soil can be determined by soil analysis, which we can arrange.

We cordially solicit your inquiries.

Rice should never be stirred while cooking but set on the back of the range to dry after it has cooked for 20 minutes.

DEMAND STERLING LOWER NEW YORK, Dec. 10—Demand sterling exchange dropped today to a new low record of \$3.77½.

ORANGE PAVING DECLARED OFF FOR TIME

Proposed paving of North and South Glassell street, North Tustin and East Collins avenues within the city of Orange, under the front-foot plan today practically is off, following discussion of the proposition at an adjourned meeting of the Orange city council last night.

At the meeting of the council Monday night, protests to the proposed work were heard and the protestants represented a majority of the frontage in the district the work was contemplated.

Further consideration of the question last night resulted practically in calling off the work under the plan which it was proposed to operate—assessing the cost to the property owners according to their frontage. The formation of a district for making the improvements was discussed, and this plan may be adopted later to take care of the needed improvements. It was suggested that the city go fifty-fifty with the property owners, but it developed that there are no funds available for the purpose and that it is not possible to create such a fund in a city of the legal class of Orange.

TONIGHT!

Take "Cascarets" if sick, Bilious, Constipated.

Enjoy life! Straighten up! Your system is filled with liver and bowel poison which keeps your skin sallow, your stomach upset, your head dull and aching. Your meals are turning into poison and you can not feel right. Feel splendid always by taking Cascarets occasionally. They act without gripping or inconvenience. They never sicken you like Calomel, Salts, Oil or nasty, harsh pills. They cost so little too—Cascarets work while you sleep.—Adv.

PETITIONS FOR CEMETERY AT CHURCHES

Plans Made For Securing Additional Names Needed to Complete Document

With 3000 names yet needed to have a sufficient number for the presentation of petitions to the Board of Supervisors asking creation of a cemetery district for the care of abandoned cemeteries, Secretary Metzgar of the Chamber of Commerce is preparing to place petitions with the pastors in the proposed district for circulation at church meetings.

The petitions probably will be sent out to the various ministers during this week, Assistant Secretary Miss Arlie Cravath today being engaged in arranging them for distribution. Creation of the district is proposed to provide a fund for caring for the old section of the Santa Ana cemetery and for other burial plots within the district.

The condition of the Santa Ana cemetery has been the incentive in getting up the petition. It is badly neglected and its present condition is an eyesore to the community. If a district is formed a cemetery tax will be added to provide money for keeping the old plot in a more presentable condition.

With the required number of names attached to the petition, the Board of Supervisors has no alternative but to authorize the organization of the district.

BIG QUESTION FOR WOMEN

IN "EXPERIMENTAL MARRIAGE" "Shall I marry and lose my freedom, or stay single and lose the man I love?" is the question Constance Talmadge as Susanne Edcoll finds herself called upon to answer in her latest Select picture, "Experimental Marriage," in which she is presented by Lewis J. Selznick.

Does marriage imply the abandoning of all liberty on the part of the wife? When a woman marries a man, does it mean that she must give up her dearly beloved freedom and spend the rest of her life in living for one man, only one of millions of men that exist on earth? These were the questions that the charming widow Edcoll put to herself and found herself incapable of answering.

That's why she hesitated when Harrison Ford, as Foxcroft Grey

COLLEGE PROFESSOR MAY LOCATE IN CITY

Prof. J. W. Shuster of Madison, Wis., and wife and son are here upon a visit to Thos. Trythall and family, the families being old acquaintances. Prof. Shuster was with the Wisconsin university for twenty years, in charge of the chair of electrical engineering, and recently resigned his position. He has come into Southern California with a view to locating, and may decide on Santa Ana.

"This is my first visit to Southern California," said Shuster today. "I have made two or three attempts to get away and visit the land of sunshine, but my plans were interfered with each time. This time I just cut loose, and here I am. This section looks good to me, but as yet I haven't been here long enough to see much of it."

"MEANEST MAN" IN L. A. LOS ANGELES, Dec. 10—The "meanest man" is in Los Angeles today. He bought Red Cross Christmas seals with a lead dollar.

PAIR HELD IN DANZEY CASE WANT FREEDOM

HAMMONTON, N. J., Dec. 10—A stitution of habeas corpus proceedings to force the release of Charles S. White and Mrs. Edith L. Jones held at May's Landing in connection with the death of Billy Danzey, was forecast here today with the arrival of their attorney, G. Arthur Boldt of Atlantic City.

Boldt intimated such action would be taken shortly if county officials did not "show their hand" at once.

U. S. PEACE DELEGATES DEPART FOR AMERICA

PARIS, Dec. 10—The chief members of the American peace delegation left Paris last evening for the first stage of their journey to the United States. Frank L. Polk, Henry White and Gen. Tasker Bliss were bidden farewell at the station by Premier Clemenceau, Marshal Foch, Ambassador Wallace, the Earl of Derby, the Japanese Ambassador, the Marquis of Chamberlain and others.

We are fortunate to be able to state that our Holiday Candy stocks will meet every demand.

BUY GIFTS RIGHT AT THE WHITE CROSS

In your search for gifts which will be really useful, much time may be saved by visiting The White Cross. Here you will find only those things which have a lasting value, yet each carries with it the spirit of Christmas. We expect this to be our busiest holiday season, not alone because we are amply stocked with gift articles, but for the reason that the service behind the merchandise will be prompt, efficient, courteous and helpful.

THERMOS BOTTLES FOR GIFTS

For Southern California autoists, particularly, the Thermos Bottle is an ideal gift, since it may be used for all outdoor purposes the year round. These fine articles are priced \$2.50 to \$10.

UNIVERSAL AND THERMOS LUNCH KITS

You can always eat a warm lunch if you carry one of these useful Kits.

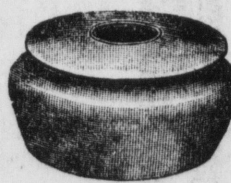

Universal Lunch Kit, black enamel, containing black enamel bottle (pint size) \$4.50.

Thermos Lunch Kit, contains pint bottle with cup attachment, \$4.00.

ALUMINUM HOT WATER BOTTLES

The Viko Aluminum Hot Water Bottle is the gift that will last a lifetime. This is an eminently satisfactory article which should be in every home—\$2.50.

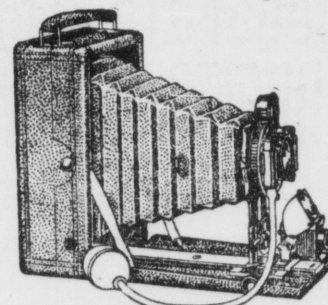

HAIR RECEIVERS

Also puff boxes of Ivory Pyralin; several patterns in our stock at 75c to \$4.

THE BUSY CHRISTMAS SHOPPER WILL FIND OUR LUNCHEONETTE SERVICE HELPFUL.

Kodaks and Cameras

Pictures are something that everyone appreciates. Take them yourself and mail them to friends.

The cost of Kodaking is small in comparison to the enjoyment one gets. We have Kodaks and Cameras in all styles and sizes at the price you want to pay. Brownie Cameras for the little folks.

If She Has a Set of French Ivory She'd Love to Have Extra Pieces

—and the place to get them is at the White Cross. Larger assortments than ever before are here for you to choose from. You'll find anywhere from one to half a dozen pieces she could use, no matter how complete her set.

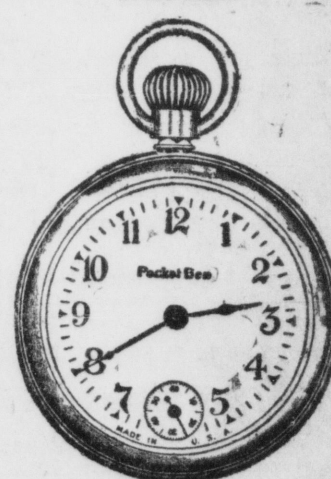

Such presents as one finds listed below are as much a pleasure to give as to receive.

- Hair Brush with flat back and face, half round edge; 11 rows of 1 1/4-inch bristles \$6.00
- Hair Brush with flat face and back; half round edge; 11 rows of 1-inch bristles \$4.75
- Hair Brush with flat face and concave back, square edge; 13 rows of 1 1/4-inch bristles \$10.00
- Hair Brush with flat face and dome back, full round edge; 11 rows of 1-inch bristles \$5.50
- Cloth Brush, flat back, 8 rows of bristles \$4.00

DIVORCE ECHO IN MYSTERY BOX ORDER

Judge Lifts Ban Tying Up Drawer In Bank at San Diego

An echo of the matrimonial difficulties of Jules Morel and Dorcas Morel, which were aired in the local courts several weeks ago, when Morel failed to win a divorce from his wife, was heard today when Superior Judge Williams entered an order releasing a restraining order against the First National Bank of San Diego, and specifically against safe deposit box number 789, and standing in the name of Prosper S. Morel, a brother of Jules Morel.

It was this safety deposit box which figured to a considerable extent in the recent divorce proceedings here, when Attorney Stanley M. Reinhaus, of the firm of Scarborough, Foray & Reinhaus, counsel for Mrs. Morel, sought to ascertain the contents of the box by questioning Morel.

Morel steadfastly refused to reveal the contents of the box. He said he did not know what was in it. The order granted by Judge Williams today was entered at the request of Mrs. Morel's attorneys. Mrs. Morel, it was said, is desirous of having the sheriff of San Diego open the box in question under an execution, in order that it may be ascertained what is contained in it.

At the recent divorce trial here Mrs. Morel testified that at one time while the couple were living together in Los Angeles Morel made an attempt on her life. Morel, the witness said, came into the room where she was sleeping and began feeling "of the bones of her throat." In connection with this the court remarked that possibly Morel was caressing Mrs. Morel.

LAGUNA PETITION GRANTED

A petition asking the abandonment of a portion of a road in the Laguna Heights tract, at Laguna Beach, was granted by the board of supervisors. The petition was signed by Joe Skidmore, T. J. Saylor, Roy W. Peacock, Catherine A. Brooks, E. E. Jahraus, Edgar A. Payne, Henry Simon, Guy E. Skidmore, J. S. Thurston, Oscar T. Farman, all of Laguna, and George O. Renner, of Pasadena.

COURTHOUSE NEWS

SURVEYOR TO HAVE CAR

County Purchasing Agent, P. W. Slabaugh today had instructions from the board of supervisors to buy a commercial car to be used by County Surveyor J. L. McBride in connection with road work.

GRANTED PIPE LINE PERMIT

The board of supervisors has granted H. G. Boehner a permit to lay a pipe line.

First Arrests Made On Arm Signal Charges In County

ACTING under instructions from the office of the district attorney, County Motor Officers O. K. Carr and Roy Ballard have begun to make arrests of motorists who fail to obey the state motor vehicle law regarding arm signals.

Three Los Angeles men, E. Eschrich, T. C. Smith and Ed H. Hauser, were the first to be arrested in Orange county for alleged failure to give proper arm signals on stopping their automobiles or on changing direction.

Another law the officers have begun to enforce is that which requires a red flag to be shown on any load which extends a distance of four feet or more in the rear of a vehicle. The men first to be arrested in this county on this charge were W. A. Manis, of Los Angeles, and T. L. Estes, of Fullerton.

"We are going to enforce both these laws strictly," said Officer Carr today. "If every motorist obeyed the law regarding arm signals, automobile accidents would be reduced fifty per cent, I believe."

CONTINUE HEARING

The board of supervisors has continued until January 20 a petition asking the abandonment of a portion of certain streets and alleys in Hart's subdivision, Anaheim. The petition was signed by Annie M. Lawrie, Mildred L. Lawrie, J. C. Williams, E. A. Miles, Mrs. M. A. Fayle, J. Maisel, Mary Goodman, B. J. Berwin, William M. Hayward, Frank Champlin, F. W. Muller, H. Wilke, A. A. Mills, F. R. Gresswell, C. M. Berger, A. Nagel, Mrs. C. H. Thayer, C. Thayer, C. G. Thayer, J. E. Thayer, Laura Graves, A. F. Graves, all of Anaheim.

HELD TO ANSWER ON DRUNKENNESS CHARGE

George Doyle of Los Angeles today was awaiting trial on a charge of having been intoxicated while driving an automobile, after he was held to answer in justice court at Anaheim. Doyle is out on \$500 bail. It was alleged his automobile was in slight collision with several other machines standing in Fullerton on November 24. Witnesses at his preliminary examination were A. W. Wood, city marshal, Officer Marcus Andrade of Anaheim, and M. A. Blackman, Deputy District Attorney W. F. Menton handled the case for the people.

REPORTS HORSE STRAYED

E. Marcias of Delhi today reported that a brown mare belonging to him had strayed. The report was made to Sheriff Jackson.

Potato chowder made with potatoes, onions, milk, butter and seasoning, is an excellent cold-weather dish.

LAW ON SCHOOL ATTENDANCE BROKEN

Supt. Mitchell Bares Figures Revealed In County Census

That there are approximately 100 children in various parts of Orange county between the ages of 8 and 17, who, in direct violation of state school laws, are not attending school, was the statement today of Superintendent of County Schools R. P. Mitchell.

There are perhaps fifty children under 16 who are out of school, and working, while there are probably as many more who are staying at home without valid excuse, according to Mitchell.

These figures are based by Mitchell on partial reports that have been made to him by census takers in connection with the tabulations made during the month of November. These reports are required to be in Mitchell's office by January 1, in order that he may make a complete report to the authorities at Sacramento.

"Under the law, school trustees must investigate to see whether or not the state law requiring all children between the ages of 8 and 16 to attend school is being complied with," said Mitchell. "The trustees must see to it that children attend school, and in cases where the law is being violated, complaints must be brought against the parents or guardians of children not attending school."

Would Be Cut Down

"I believe that if the trustees in every district in the county were to see that the laws are carried out, the number of children not attending school would be cut down to practically nothing. Trustees in some districts are enforcing the law, while others, I have no doubt, will take steps at once, if the conditions prevailing at present are brought to their attention."

It was stated today that there are in Santa Ana approximately 20 children who have habitual truants from school. Most of these children, it was said, are refractory in school, are expelled, and then remain away. Inasmuch as the law provides that all children between the ages of 8 and 16 must go to school, a provision was made in the state law for taking care of habitual truants by the establishment of what is known as parental schools.

The establishment of a parental school in Santa Ana is being advocated, it was learned today. The city is large enough now to make such a school necessary, it was said.

County Probation Officer J. H. Scott, County Superintendent Mitchell and Superintendent of City Schools J. A. Cranston are planning on investigating the parental schools in Los Angeles in the near future with a view to determining to what extent the plan adopted in that city may be adopted here, it was reported.

SUGGESTS CLUB, ROOMS, IN NEW BUILDING

Commercial Organization, With Elegant Quarters, Being Discussed

Organization of a Commercial club with the Sunset club membership as the nucleus and with handsome club rooms in the top story of the proposed six story building of the First National Bank to be erected on the southwest corner of Main and 4th streets, today is being discussed, following its suggestion last night by Geo. W. Minter at the annual meeting of the Sunset club.

That Santa Ana is large enough to support a big club, and that such an organization and club rooms are needed here, is conceded by all who have discussed the proposition. "It is indefinite as yet when the bank will construct its new building but there is every probability that it will be within the next year," said Minter today, in discussing the club organization. "Santa Ana needs a club that will include the commercial men of the city and the time is coming when we will need it more than we do now. With the bank planning to build, it would be a fine stroke if we could create the club at this time and engage the top floor before the plans are fully drawn. We could have it designed to the needs of a club, and is an opportunity to secure special rooms that might not be available later."

Agitation and discussion at this time should result in determining whether or not there are sufficient men in the city who will become identified with it to warrant the renting of the upper floor and providing it with club equipment that will make it attractive and at the same time offer a lounging home for local people and a place of entertainment for friends of the members who might come to this city. "I was a member of the Jonathan club in Los Angeles long years before Santa Ana ever thought of being a real city and its value to the metropolis has long been realized and appreciated. I believe the same thing will result from the maintenance of such a club here."

The annual meeting of the Sunset club last night was featured with an oyster supper served in the club rooms, with Mrs. Geo. Balderston being given credit for preparing the

INTRODUCING "MISS SHOPEARLY"

Yes, my name is really Miss Shoppearly, and my mission is to assist you in your Christmas shopping. You will find me in Spicer's ads and at the store.

By the way, yesterday while I was in the store I stepped up to Miss Perkins and asked her what she had that would be nice for gifts and she said: Well, let me see. Oh, I have so many lovely things I don't know which to suggest first. Oh, yes, first of all our kid gloves are here. They were bought on import—made in France and are the finest "Kids" you ever saw at \$3.00. And then next, some lovely velvet and plush bags with fancy silk linings, silver or shell tops and vanity fittings and very reasonably priced at \$5.00 up to \$12.00.

And then I strolled back to the hosiery department and Miss Young promptly stepped up to tell me about the new line of Luxite Hosiery she had just received. She was so enthused over the line that I began to investigate and was astonished at the wonderful values she had to show me at \$1.25, \$1.50, \$1.75, \$2.00 and \$3.00.

But when Miss Iman began showing me the line of silk lingerie I thought of a dozen friends whom I would love to remember with a gift of one of these dainty creations of silk and lace.

Turning around I found myself in the center of the store and looking around I saw beautiful silk pillows, Japanese Lunch Cloths, colored border Turkish towels, boxed handkerchiefs, knit yarn goods, bed spreads, blankets, bath robes, books, dolls and Oh, "Everything."

Miss Shoppearly

YOUR GIFTS AND HOW TO BUY THEM BEST

You want YOUR gifts to look a little better than the money they cost. And so this store has brought its prices down to rock bottom—has bought more closely than ever it bought before—and has given you the full benefit of its savings. You want YOUR gifts to be a little different from the "ordinary" ones that everybody gives.

And so this store has gone out of its way to pick up things here and there and everywhere that have some mark of distinction—that impress everyone right away as being different.

You want YOUR gifts to come within the range of the amount you have allowed for Xmas shopping—and, if possible, leave you a little over for the many unexpected needs of Xmas week.

And so this store does not try to get a few cents more from you for each article you purchase—but makes every effort to satisfy your wants at the price you wish to pay.

In short, this store is your helper in Xmas shopping—a courteous, reliable, serviceable friend whose assistance you can take freely and without after-regrets.

Bath Robes

Give her one of these elegant bath robes and make her happy. Every day she wears it she will remember the giver. You'll be agreeably surprised at the beauty of design and exceptional quality, and best of all they are very reasonably priced at:

\$4, \$5, 6, \$7

Silk Petticoats

What more useful gift could one give to a close friend than one of these beautiful silk petticoats?

JERSEY TOPS with accordin pleated ruffles or all taffeta silk in changeable effects and solid colors. None such values to be found elsewhere at:

\$5, \$6, \$7

HAD YOU THOUGHT OF A PATTERN OF SILKS OR WOOL DRESS GOODS?

Courteous salespeople will be pleased to show you and advise you correctly of the right material, the right shade and the correct amount to buy—and then, too, we will pack it in a neat box for mailing if you so wish.

LEGION SQUAD PLAYS POLY XMAS DAY

Arthur Lutz to Be Captain of Service Men's Squad, Announced

That a team composed of members of Santa Ana Post, American Legion, will play the Santa Ana Polytechnic high school squad on the afternoon of Christmas day, was announced today by W. R. Coleman, one of a committee of the service men's organization having the arrangements in charge.

The game is to start promptly at 2:30. The high school cadet band has agreed to donate its services for the afternoon.

The proceeds of the game will go toward defraying the expenses of securing furniture needed for the Legion clubrooms, use of which was donated by the First National Bank. Arthur Lutz, former coach at Redlands high school, and a prominent football player, has consented to act as captain for the Santa Ana Post team.

"We are going to do our best to defeat the high school squad in the Christmas day game," said Coleman today. "The game will be a good one, it goes without saying."

Among those whom Coleman has in mind to "sign up" for the Legion squad are Ed Covington, Marvin Greathouse, Gene Trago and Charles McClain, Pomona college football men; Loftus (Big Spud) Morrison, S. S. (Shorty) Smith, Royce Lantz, Joe Irvine and Franklin (Brick) Grouard.

WOMAN DRIVER FINED

Mrs. H. E. Colson of Fullerton today pleaded guilty in justice court to a charge of cutting a corner in her automobile and paid a fine of \$3.

PEACE DISTURBANCE AT BREA IS CHARGED

In a complaint which was on file in justice court today Ella S. Kellogg charged George Schuppert with disturbing the peace. The complaining witness accused Schuppert of using loud and profane language in her presence.

The alleged peace disturbance occurred at Brea on December 5. The complaint was drawn up by Deputy District Attorney Alex P. Nelson.

Ford

THE UNIVERSAL CAR

Weak Links In A Strong Chain

That's just what imitation parts are when they become a part of your Ford car. They look strong enough, but the metal isn't there—the strong, durable Vanadium steel that goes into the Ford chassis and every Ford part. Ford parts are specially cast and heat-treated, each according to its use. Some require a hard, flint-like wearing surface, others need resiliency, and some need just "toughness."

Ford metallurgists have been studying these problems for sixteen years and know just how each unit should be made to endure a maximum of wear and tear. They know that best results can be obtained only by use of special formulas for different parts, and that honest Ford parts wear from thirty-five to one hundred per cent longer than counterfeits.

We carry complete assortments of genuine Ford parts for both passenger cars and trucks. And our garage is equipped to give careful, prompt Ford service—from minor adjustments to complete overhauls. Drive in, it's better to be safe than sorry. Come to the Authorized Ford dealer for service.

FEDERATION IS BETTER THAN ANY FARMERS EVER HAD

Agriculturists No Longer Will Be Football of Capital and Labor

Certainly one of the most important, if not the most important meeting of farmers ever held in this country was the recent conference of the State Farm Bureau representatives held in Chicago. Out of that meeting of farmers from all over the nation—Vermont to California, and Georgia to Minnesota—has come the largest and strongest farmers' organization in the history of this nation, the American Farm Bureau Federation.

While the occasion was, of course, one of particular interest to agriculturists, the national federation movement among farmers is probably even of greater significance to the nation at large. For it means that no longer will the American farmer meekly submit to being the scapegoat of either capital or labor. Notice has been served on both that henceforth the farmers of the nation at the largest industrial class propose to have a part in shaping national affairs and in insuring a fair return on their investment and labor. The American farmer has chosen to remain neutral in the present strike between capital and labor but he does not propose to permit either to longer abuse him. In wisely adopting this attitude the American farmer continues to be as always in the past, the great stabilizing influence in periods of national crisis—the anchor of the nation to windward in times of storms and radicalism.

Logical Growth. The American Farm Bureau Federation comes as a logical growth and development of the Farm Bureau movement all over the nation, and which has occurred coincident with the expansion of the County Agent or Farm Advisor movement. At the present time it is conservatively estimated that well over one million farmers are allied with the several thousand county farm bureaus in the country, most of whom are in turn federated together to form state organizations, the oldest of which is not over two years in age. Early last spring, February 12, to be exact, some ten of the eastern states already having state-wide organizations, met at Ithaca, New York, to discuss the advisability of a national organization. So unanimous was the sentiment in favor of such a meeting that an organization committee was appointed with instructions to call a meeting at Chicago, November 12 and 13, to perfect the national organization. From the time of this initial meeting of ten eastern states it has been patent to those interested in the movement that the national federation would soon be a reality.

Many States There. With representatives from thirty-six states present, those from California being W. H. Walker of Glenn County, president of the California Farm Bureau Federation; George H. Sawyer of Stanislaus County; and Volney H. Craig of Los Angeles County—the recent convention at Chicago represented nearly a million American farmers. And while this membership is now probably not much over one-third of that of the American Federation of Labor, the influence of the American Farm Bureau Federation is already probably as great as that of organized labor for most farm bureau members represent several other workers on their farms—members of their families and hired help.

Objects Stated. The objects of the new organization as expressed in the constitution, which must be ratified by at least ten states before the date set for the next meeting, March 3rd, are "to correlate and strengthen the state farm bureau and similar organizations."

(Continued on page ten)

Boy Gives Dinner To Pig To Win County Fair Prize

Porker Gets Fat and Youth Grows Lean at Farm of Industrial School

This is the story of a boy who lost weight that a pig might gain it. The boy hadn't much weight to lose. He had been a pale, spare waif of the city, and was only beginning to grow plump with life on

Harry and His Prize Porker.

a 450-acre farm. But the boy was learning the fun of being a farmer, and the pig was his special charge. And there was to be a county fair. And he wanted the pig to win the prize. Harry—that was the boy's name—had a farm boy's appetite. And the pig had a pig's appetite. And Harry, eager for the prize, sacrificed his appetite for the pig's.

Every day Harry went without his dinner. He gave it to the big black pig. One week the pig gained a pound a day. But Harry fell off. Then came the fair, and the pig won first prize.

And Harry began eating dinner again. The story's a true one. It comes from the Industrial School and Farm for Homeless Boys, at Covington, Va., a school maintained by the Episcopal church.

Harry is one of 80 boys, waifs from all the country between New York and Alabama, who live in the three cottages. And the boys in each cottage have a real mother. The boys learn agriculture and carpentry and other useful trades, so that they can be independent, useful men.

The story of Harry and the big black pig might not have happened if Harry had been one of the 800 homeless boys who were turned away from the farm school last year because there was no room for them. And Harry instead of growing up into a farmer, might have become a reformatory boy or even a criminal.

But 1,000,000 members of the Episcopal church are preparing to make such a refusal as that to the 800, impossible in the future. Part of the \$42,000,000 they plan to raise as a climax to the Episcopal nationwide campaign, will be devoted to making room for more boys at the farm school at Covington.

Importance of the tractor short courses given by the University of California agricultural authorities was shown in a statement issued by Dean Thomas Forsyth Hunt that 23 per cent of the farm power of California is furnished by tractors not including electric motor and stationary engine power. There are 14,600 tractors in use in California today.

The next tractor short course to be given by the State University will begin February 23, at the Citrus Experiment Station, Riverside.

CHANGE IS ADVISED FOR FEATHER PICKER

Fowls sometimes pluck feathers from themselves and each other, which is often caused by too close confinement, by the presence of insect pests, or by improper feeding. When some of the fowls of a flock have formed the habit slightly, a wide range with a change of diet, including a plentiful supply of animal feed, and freedom from insect pests, will usually correct this evil. Above all see that the fowls have plenty of inducement to exercise. If the habit becomes well formed it is very troublesome and may necessitate the killing of some of the fowls in order to stop it.

Dr. H. A. Berge, chiropactor, 418 Sprague Ave. Berge, Hours, 9 to 12, 1 to 5 and 7 to 8. Phone 1050.

(Continued on page ten)

Low Egg Production

—through the Fall and Winter season is natural. Many people forget this fact and, as a result, become discouraged over their chicken investment. The cool-headed poultryman figures results by the year—not simply on a two or three months' period—and as a consequence makes money. He always feeds to the very best of his knowledge regardless of light or heavy egg production.

Moral: Don't get discouraged and go to feeding poor feed during a lull in production—and don't sell your hens. Buy good feed—it always pays. Buy "BIG N" MASH and "BIG N" SCRATCH FEED.

NEWCOM BROS. Sycamore at Fifth Santa Ana

BRUISES CAUSE SWEET POTATO TO ROT VERY QUICKLY

Department Bulletin Gives Pointers on Handling the Product

Sweet potatoes deserve as careful handling as apples. In fact, they will not stand the rough handling that apples are often subjected to in grading and packing.

This statement may surprise many sweet potato growers who are not in the habit of taking pains to avoid bruising this product. The question of proper handling of sweet potatoes is one of several points touched on in a publication just issued by the Bureau of Plant Industry of the United States Department of Agriculture, Farmers' Bulletin No. 1059, entitled "Sweet Potato Diseases."

One of the chief barriers to the extension of sweet potato growing in this country is the inability of farmers to keep sweet potatoes in storage so that they can be placed on the market in winter when prices are good. Consequently most of the crop grown in the South is consumed locally or sold at digging time when prices are low. A few sweet potatoes go to northern markets in winter, and even in the South they cannot be obtained with any degree of certainty at that season. Specialists of the Department of Agriculture believe that if storage methods and principles were better understood, far more sweet potatoes would be available for winter use.

Must Fight Diseases. However, the success of the industry does not depend on careful handling and successful storage methods alone. There are several serious field diseases, as this bulletin points out, the best known of which are black rot, stem rot, and foot rot. The storage of sweet potatoes affected with black rot must necessarily result in heavy loss since the disease spreads rapidly throughout the bins. Stem rot, on the other hand, does not produce any marked decay in storage, but it may open the way for storage rot organisms to enter the potato. It is imperative, therefore, that the elimination of field diseases supplement a well-regulated system of storage.

After sweet potatoes are dried off and the surface moisture has been removed, they should be carefully laid in containers holding about a bushel and hauled to a storage house. If the potatoes are to be stored in bins they should be poured carefully from the containers into the bins. There are some advantages in storing in crates rather than in bins. Crates permit the free circulation of air among the potatoes, a condition which cannot be so readily obtained if they are piled in a bin. The crate has an added advantage in that by its use as many potatoes can be taken out for the market at any one time during the winter as are desired without disturbing the remainder. Sweet potatoes will not stand frequent hauling, and for this reason it is unwise to disturb a pile or bin unless they are all marketed at the same time. The use of crates eliminates this difficulty.

Dig Late for Storage. Potatoes intended for storage should be dug as late in the fall as is consistent with weather conditions. This is usually just preceding frost or after the first light frost. Frozen potatoes will not keep, and it is likely that a heavy frost will injure them to some extent. It is advisable after a heavy frost to cut the vines at once and dig. To wait too long may mean that in order to avoid freezing the potatoes must be dug during bad weather. After the potatoes are dug they should be left exposed long enough to dry off the surface moisture. On a bright day this would require but an hour or two. On a very hot day, however, it would be desirable to hurry the potatoes to the shade after their surfaces have been dried in the sun.

While sweet potatoes sometimes keep well stored in banks or pits this method of storage is not at all reliable, as temperature and moisture cannot be controlled. In a well-constructed storage house these conditions are under the control of the operator. Full details on storing sweet potatoes are contained in Farmers' Bulletin 970 of the United States Department of Agriculture.

FARM FOR EACH CHILD

MARYSVILLE, Pa., Dec. 10.—Jacob Barner of Pfouts Valley, desiring to distribute some of his estate while yet alive, at a recent family gathering presented each of his children with a fully equipped farm. Seven children were included, as follows: Charles Barner, Lee Barner, Roy Barner, Lutheran Barner, Mrs. Mary Spicer, Mrs. Margaret Lyter and Mrs. Milton Gelnert. All live within a few miles of Liverpool.

HANDCUFF KEY FAR AWAY

GREENSBURG, Ky., Dec. 10.—J. R. Fullerton, being inexperienced in the matter of handcuffs, accidentally locked the Sheriff's pair on his own wrist a few days ago. It wouldn't have been so embarrassing if a key had been handy, but it was in Meade and ex-Sheriff Fullerton was literally handcuffed till a phone message brought the key by registered mail.

REFUSE TO LET JAPANESE INTO FARM BUREAU MEMBERSHIP

Resolution Asks That Exclusion Steps Be Taken By Federal Authorities

The directors of the Orange county farm bureau have refused to allow Japanese to become members of the bureau. The directors also have passed a resolution asking for measures for exclusion of Japanese.

The Japanese of the county, personally addressed to the directors through M. Nishizaki, asked affiliation to the Farm Bureau. Two resolutions were passed unanimously, meeting the situation openly and squarely.

The first resolution was that Japanese should not be granted membership in the Farm Bureau of Orange county. This action was taken on the stand that any tolerance or concession to the Japanese or other race that cannot be assimilated would weaken the stand taken in the second resolution, dealing with the exclusion of the Japanese entirely. The second resolution is worded as a resolution by the Merced County Farm Bureau, as follows:

Text of Resolution "Whereas, the Japanese population in California is increasing rapidly and

"Whereas, these people will always remain in our midst an alien element unassimilated and unassimilable and

"Whereas, their presence here lays the foundation for a race problem more serious than any that ever confronted us and may lead to armed conflict, which may again involve the world, and

"Whereas, the only way to solve the race problem is to stop it before it begins, and

"Resolved, by the directors of the Orange County Farm Bureau, that our Senators, Hiram W. Johnson and James D. Phelan, and our representative William Kettner and every senator and representative of the United States Congress be asked to use their best and utmost endeavors in favor of the following propositions, to-wit:

"First, cancellation of the 'gentlemen's agreement.'"

"Second, exclusion of 'picture brides.'"

"Third, rigorous exclusion of Japanese as immigrants."

"Fourth, further confirmation and localization of the policy that Japanese shall forever be barred from American citizenship."

"Fifth, amendment of section 1, of Article XXV of the federal constitution, providing that no child born in the United States of foreign parents shall be considered an American citizen unless both parents are of a race that is eligible to citizenship."

"Be it further resolved, that a copy be sent to each of said members of congress."

Both resolutions were approved unanimously by the directors present, and the secretary instructed to advise each center accordingly.

FARM BUREAU IS IN NEED OF MORE HELP

Twenty directors and members of the Farm Bureau from every part of the county waited on the Board of Supervisors yesterday to ask for an appropriation of \$1500 for the expenses of an assistant to the Farm Advisor. Figures were shown concerning the growth of the work during the year and the increasing demands on the Farm Advisor's office. It was pointed out that fourteen other counties in the state had made appropriations for assistants.

Pres. W. D. Johnston, H. B. Woodrough, Wm. Belding, E. E. Campbell and Jas. Smiley spoke for the Farm Bureau.

The directors and members who waited on the Board of Supervisors were: President W. D. Johnston, Westminister; Vice-President Jas. Smiley, West Orange; Secretary Dr. J. R. Schofield, Buena Park; H. B. Woodrough, Harper; H. E. Hibbs, La Habra; Fred Bastady, Buena Park; Ed Chaffee, Garden Grove; Wm. Belding, Tustin; Murray Home, Yorba Linda; J. B. Cleghorn, Harper; D. Eymann, El Modena; W. T. Chapman, El Modena; I. L. Marchant, Tustin; J. J. Dwyer, Anaheim; Dr. S. S. Twombly, Fullerton; A. C. Stanley, Garden Grove; W. W. Perry, Villa Park.

Best Advice is, Let Pigs Nurse Sow For Full Ten Weeks

AT the conference of swine extension workers of United States Department of Agriculture, held recently in Washington, the question of weaning pigs arose. The discussion brought out the fact that in some parts of the country farmers followed the practice of weaning their pigs at most ages from five weeks up.

The conclusions reached were that for the best results pigs should be allowed to nurse the sow for at least ten weeks where it is possible to do so. It was decided that it would be still better to allow the pigs to wean themselves.

A good suckling sow properly fed should be in a good flow of milk up to the time the pigs are at least ten weeks of age. Without question the mother's milk is the best feed, possible to obtain for young pigs. Consequently hog growers should take advantage of this natural feed to the greatest extent possible.

OATS, BARLEY AND WHEAT WEIGH LESS

The weight per measured bushel of wheat this year is 56.3 pounds, as against 58.8 pounds last year, and 58.2 the 10-year average. The weight of measured bushel of oats is 31.1 pounds, as against 33.2 pounds last year and 46.5 pounds the 10-year average. The corresponding figures for barley are 45.2 pounds for this year, 46.9 pounds for last year, and 46.5 pounds for the nine-year average, according to the Bureau of Crop Estimates, United States Department of Agriculture.

CO-OPERATING TO KILL COYOTES IN N. DAKOTA

The Biological Survey of the United States Department of Agriculture, in co-operating with the North Dakota Agricultural College, has made arrangements to begin work in destroying coyotes and other predatory animals in North Dakota. That the funds available may be expended to the best advantage conferences have been held at which plans of procedure were worked out, and certain sections of the region needing assistance most urgently were designated. The latest and most effective methods of hunting and trapping the wolves and coyotes as developed by the Biological Survey will be employed in this campaign. Similar operations for the destruction of predatory animals destructive of livestock are in progress in Montana and other western states.

AGED WALKS AND WORKS

NEWARK, O., Dec. 10.—The Rev. George B. Baldwin, eighty-three years of age, celebrated his birthday anniversary the other day by walking six miles to his farm, husking twenty bushels of corn and walking back to the city in time to cast a ballot at the election booth.

UNIVERSITY EXPERTS ON PROGRAM OF INSTITUTE THAT LASTS FOUR DAYS

The program for Citrus Short Course at Fullerton Dec. 16-19, follows:

Tuesday, Dec. 16th.
2:00 P. M.—Dr. A. D. Shamel, Bud Selection and Furrow Manuring, Tree Performance Records.
7:30 P. M.—Prof. H. J. Quayle, Fumigation.
Wednesday, Dec. 17th.
2:00 P. M.—Dr. Reed, Pruning Citrus and Walnuts.
7:30 P. M.—Dr. L. D. Batchelor, Walnut Culture.
Thursday, Dec. 18th.
2:00 P. M.—Drs. Fawcett & Barrett, Scaly Bark, Gummosis, Root Diseases.
7:30 P. M.—G. Harold Powell, Co-operative Marketing.
Friday, Dec. 19th.
2:00 P. M.—Prof. R. S. Vaile, Orchard Management, Cover Crop Excursion.
7:30 P. M.—Dr. I. G. McBeth, Commercial Fertilizers, Orchard Heating.

THE very best thing that citrus and walnut growers of Orange County have ever had arranged for them in the way of instruction courses is the Citrus Short Course to be given at Fullerton Union High School next week. The lectures and demonstrations will start on Tuesday, December 16, and will continue for four days. Growers from all over Southern California, and more particularly from all over Orange County, are urged to attend.

The afternoon demonstrations are to be at S. W. McCulloch's orchard, three miles east and a half mile north of Fullerton. The lectures will be at Fullerton Union high school.

On Tuesday afternoon, December 16, Dr. A. D. Shamel, plant physiologist of the U. S. Department of Agriculture, who has been making a life study of bud selection, tree performance records, and furrow application of manures, will present subjects to the citrus growers.

On Wednesday, 2 p. m., Dr. Reed of the Citrus Experiment Station, will give a popular demonstration on the pruning of citrus trees and walnuts.

On Thursday, December 18, at 2 p. m., Drs. Fawcett and Barrett of the Citrus Experiment Station, will demonstrate the best method of controlling Scaly Bark, gummosis and various root rot diseases. Dr. Barrett will also discuss the subject of "Mottle Leaf."

For Friday, Dec. 19, at 2 p. m., the farm advisor is planning a short excursion to visit several cover crop demonstrations in the vicinity of Fullerton. Prof. R. S. Vaile of the Citrus Experiment Station will accompany this excursion and discuss various phases of the citrus orchard management.

All the afternoon meetings will begin at 2 o'clock sharp and will adjourn in time so that the farmers may get home in time for chores and supper, so as to return to the evening meeting, at 7:30 p. m. sharp.

Prof. H. J. Quayle of the Experiment Station, will address the citrus growers on the subject of "Fumigation." Tuesday, December 16, at 7:30 p. m. There are many discussions coming up from time to time regarding the efficiency, chemistry, application, temperature effect, time of exposure for various scales, etc., all of which will be discussed at this meeting.

Walnut men will be especially favored by an address by Dr. L. D. Batchelor on Wednesday, December 17, at 7:30 p. m. Dr. Batchelor will discuss the irrigation of walnuts.

YACHT CLUB HAS ANNUAL DINNER SATURDAY EVE

Affair Will Be In Nature of Opening For Newly Remodeled Clubhouse

Next Saturday evening is going to be a red-letter occasion for the Newport Harbor Yacht Club, with the holding of its annual meeting, banquet and dance, with dinner at 6:30. The occasion is also notable from the fact that it will be the first gathering in the newly-remodeled clubhouse at East Newport, and will be in the nature of an opening for the building, around which the yachting activities of Newport Harbor will center during the coming seasons.

More than \$5,000 has been spent on remodeling the club house, and it now ranks with the best from the standpoint of comfort, convenience and looks. The club now has two hundred members, and a big attendance is looked forward to Saturday evening. The charge is \$1.50 per plate, and good music has been secured for the dance which will follow the dinner and meeting.

An important announcement made by Commodore A. H. Wilson of the Yacht Club is that this club has arranged to exchange courtesies with the Union League Club of Los Angeles, and Yacht Club members may make use of the privileges of the Union League clubrooms at Second and Hill streets, Los Angeles.

ROCK CANDY IS USED TO SWEETEN COFFEE

WILLIAMSPORT, Pa., Dec. 10.—Williamsporters, mostly women, who "just can't drink coffee without sugar," are paying 50 cents a pound for their sweetening. During the last few weeks since the sugar shortage rock candy sales have been unusually large. Rock candy sells for 50 cents a pound. In former years the call for rock candy, except for "rock and rye," was small. Hence the present run caused some suspicion in the minds of some of the dealers. In answer to their queries to some of the purchasers they were informed that it was being used instead of sugar in tea and coffee.

Here's Suggestion for Breaking Up Setting Hen

As a way of breaking up the setting hen, the Farm Bureau has the following:

Provide a clean coop, with a perch. Place the coop where the other chickens will come around. Push kale, cabbage or other green feed if possible in between the slats cover the roving with chaff or fresh earth and then before closing in the hen grease well around the edges of her comb, up and down from the knee to her toes; also well under her wings, but more carefully around the vent, with no sparing of the grease there for any fifth attracts mites. (Clip any filthy feathers that may be there).

Sure-to-kill-mite mixture may be made by melting some "Compound" which is sold at local meat markets for 25 to 30 cents per pound, with from one-third to two-thirds kerosene.

It is great fun to watch the sociability of hens treated in this way, with plenty to eat, clean drinking water, changed every day (better twice a day). In a few days they are ready to go back to work and pay for their keep, ready to scratch for their own food instead of "settling around," ready to produce another egg crop.

This way sure does pay.

BLUE-GREEN ALGAE DESCRIBED IN BOOK

The first part of the "Marine Algae of the Pacific Coast of North America," comprising an account of the Myxophyceae, or Blue-Green Algae, is presented in the first of three volumes in a new University of California publication in botany by William Albert Setchell, professor of botany, and Nathaniel Lyon Gardner, assistant professor of botany in the state university. The work is presented without introduction or detailed explanation pending the publication of the other three parts which are in advanced preparation. It is intended to issue with the completed volumes a statement as to the principles followed, methods used, territory covered, sources of information, material, etc., as well as to make acknowledgment of the various authorities, students and collaborators, who have been of the greatest assistance in carrying out the task.

SAUCE IS MADE OF SOY BEANS, RIVALS JAP'S

Capital and Labor Can Not Make Football Out of Agriculturalists

(Continued from page nine)

organizations of the several states in the national federation, to promote, protect and represent the business, economic, social and educational interests of the farmers of the nation, and to develop agriculture. The three captions under which practically all the purposes and objects of the federation may be summarized were legislation, education, and business. The federation proposes to acquaint the various legislative bodies of the nation, both state and federal, as to the desires and wishes of the farmer and in turn to keep its members informed regarding proposed legislative measures affecting the farmer. Education by means of the closest co-operation with the state and federal departments of agriculture, through demonstration and otherwise, was one of the keynotes of the convention. And attending to the business interests of the farmer—cooperating, buying and selling—constituted one of the big features of the discussion.

The federation went on record on a number of current issues of the day through a series of resolutions adopted, a copy of which will be found appended at the end of this article.

A few of the most significant expressions of the conference were the sentiment expressed in favor of federal regulation of all purveyors of foodstuffs, approved of the Federal Land Banks, opposition to government ownership of public utilities, condemnation of the practice of free distribution of seeds, support of the American Legion, and an out and out stand against radicalism and Bolshevism and other anarchistic tendencies.

A New Influence.

The American Farm Bureau Federation is truly representative national farmers' organization—composed of farmers, conducted by farmers in the interest of farmers, at all times responsive to their will, and authorized to speak for the American farmer in all matters requiring an expression from this important branch of the American body politic. While it bids fair to be a most potent influence in our social structure, it will in no sense hinder or menace the interests, welfare or rights of the great bulk of our population engaged in other legitimate vocations and enterprises. While the American farmer has chosen to remain neutral in the present industrial crisis there can be no doubt that he will insist upon the elimination of certain harmful business practices which hamper American agriculture, and will demand from labor an honest day's toil for an honest day's wage.

The states represented at this memorable convention are as follows: West Virginia, Connecticut, California, Illinois, Indiana, Maryland, Michigan, Kansas, Missouri, New Hampshire, Vermont, Minnesota, Iowa, Colorado, New York, Virginia, Utah, Kentucky, Nebraska, Massachusetts, Oklahoma, Delaware, Mississippi, New Jersey, Georgia, Tennessee, Texas, North Carolina, Montana, South Dakota, Ohio, Rhode Island, Arkansas, South Carolina, Pennsylvania and Idaho.

WILL HEAR EXPERTS ON 4-DAY PROGRAM

(Continued from page nine)

with relation to "die back." He will also touch upon the fertilization of walnuts, root stocks, etc.

Dr. I. G. McBeth, manager of the Leffingwell Rancho, will discuss "Commercial Fertilizers" and "Orchard Heating" on the night of Friday, December 19.

TAKES HOUR AND HALF TO ASK ONE QUESTION

NOBLESVILLE, Ind., Dec. 10.—Dr. F. A. Toker and Dr. J. D. Sturdevant of Noblesville were called on during the William H. Beaver will contest trial here one day recently to answer the longest hypothesized question ever propounded to a witness in the local courts. For an hour and a half an attorney continued asking the question of the physicians. The question was relative to the sanity of Beaver.

Two wills were left by Beaver, the first giving all property to the children of Beaver's half-brothers and sisters and the second giving all property to the children of his brothers and sisters. Beaver was married three times, but had no children.

The estate consists of 500 acres of fine farming land in Hamilton county, worth \$200 an acre. The trial has been in progress for two weeks and attorneys for the plaintiffs have just completed their introduction of evidence.

\$30,000 FOR A HOG

OMAHA, Neb., Dec. 10.—What is said to be the record price for a single hog was paid the other day by a local breeder. He purchased Designer, a yearling Poland China carboar for \$30,000. Designer was sold for \$5,000 when only a few weeks old and this sale shows a profit of \$25,000 in a little less than a year.

ASPIRIN INTRODUCED BY 'BAYER' IN 1900

Look for Name "Bayer" on the Tablets, Then You Need Never Worry.

If you want the true, world-famous Aspirin, as prescribed by physicians for over eighteen years, you must ask for "Bayer Tablets of Aspirin."

The "Bayer Cross" is stamped on each tablet and appears on each package for your protection against imitations.

In each package of "Bayer Tablets of Aspirin" are safe and proper directions for Colds, Headache, Neuralgia, Toothache, Earache, Rheumatism, Lumbago, Neuritis, and for Pain in general.

Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

An Envidable Reputation Already Won

Hundreds of dealers who drove new Cleveland Sixes from the factory in Cleveland to their home cities have written the factory expressing their admiration and confidence in the car. What they all say is summed up in this sentence from one of them, "I can look any man in the face now and tell him the Cleveland is a regular automobile."

And that's what the Cleveland Six is—a regular automobile, an unusual automobile.

Hundreds of Cleveland Sixes, within the past four months, have undergone long, grueling, cross country drives, with honor. They have passed over great hill-drives and long mountain climbs, plowed through mud and wash-

outs and desert sands where other cars stall and stop. Its power and endurance have already won the Cleveland an enviable reputation.

This is not surprising for skill and sincerity are built into this car by men who have contributed their genius to the building up of one of America's finest quality cars.

Switzerland Has Become Seat of Unusual Finance

Country's Currency Remains Stable While That of Other Nations Depreciates and Exchange Brings Some Odd Results

By Henry Wood
(United Press Correspondent)
BERNE, Switzerland, Dec. 10.—As a result of the war turning topsy-turvy the world's basis of values, especially in the matter of foreign exchange, Switzerland has become the seat of the most fantastic finance the world has yet seen.

By not having participated in the war, Switzerland's financial, industrial and economical condition at the present time is one to be envied—no matter how much the Swiss themselves may deplore it. Especially as the result of not having contracted any war debts or expenditures and of not having made any unlimited issues of paper currency with which to tide over the war period, Swiss currency has remained almost unaffected by the crisis of foreign exchange and the depreciation of currencies from which all the belligerents are now severely suffering.

Five francs of Swiss money today are worth just about \$1 the same as they were before the war, where from eight to ten or twenty francs of other countries are necessary to purchase a single greenback of the minimum denomination.

As a consequence, Switzerland, the only country in Central Europe which retains something of its normal financial standing, has become a sort of an oasis in a desert of financial disaster. It is a sort of clearing house, or solid financial rock where the bewildered people of other countries can come for the time being and get their financial balance readjusted and their sense of values re-established before embarking on new financial enterprises.

Wierd and Fantastic
The result of operations are often wierd and fantastic to the extreme degree, resembling something in unexpectedness the high finance adventures of America and yet always with a different note. These financial Odysseys happen by the score in Switzerland daily. Here are a few that will give some idea of what they are like and some idea of Central Europe's shipwreck:

Recently a Czecho-Slovak deputy had occasion to come down to Switzerland for a few weeks to take care of a number of important affairs concerning that ambitious but financeless republic. To meet his expenses on the trip he brought with him 30,000 Czecho-Slovak crowns, the nominal value of which is about the same as a Swiss franc.

However, with the money of his own country exceedingly depreciated by the war and the lack of any solid standing to date of the new republic, the deputy was obliged to change his 30,000 native crowns into only 10,000 Swiss francs.

The deputy stayed at Berne for about two months stopping, as his position rendered necessary, at the principal hotel in the city, the prices

at which has not decreased by the war, and paying his expenses out of his 10,000 Swiss francs.

Eventually, however, his business was completed and he was ready to return to Prague. He paid off what he still owed in Berne out of the original 10,000 Swiss francs and then what was still left he had changed back into Czecho-Slovak crowns.

But in the two months which he had been at Berne, Czecho-Slovak currency had gone down further with the result that when he got what was left of his original 10,000 Swiss francs changed back into his native currency, he received a total of 42,000 Czecho-Slovak crowns, or 12,000 more than the original 30,000.

Here is another—and which is a matter of official record. Several months ago a company was organized at Berne for launching a big illustrated political weekly magazine at Vienna. Swiss capitalists who had made a fortune out of the war and Switzerland's neutrality backed the enterprise and paid up the capital in advance—namely 600,000 Swiss francs.

The total amount was deposited in a Berne bank to be changed into Austrian crowns for meeting the expenses of the new magazine at Vienna as soon as the latter could be launched.

In the meantime the prospective editors, publishers and business managers began meeting with considerable difficulty in getting the machinery together for the plant in making

sure of an adequate supply of paper, etc.

Foreign exchange on Austrian money has since decreased to such an extent that the 600,000 Swiss francs now on deposit in the Berne bank will bring 20,000 more Austrian crowns than at the moment they were paid in for launching the magazine.

Only Case on Record
This is believed to be the only case on record where a magazine or newspaper made money by not publishing—or in any event has made more money than it could possibly have hoped to make by actually doing business. And the longer it keeps from starting up, the more money it makes—in Austrian crowns.

The only way to avoid this fantastic finance now going on in Switzerland is to do business by direct barter and without the interchange of money. As a matter of fact this also is being developed by the force of circumstances to an astounding degree. Here is perhaps the most remarkable recent example:

A former high official in the German navy has just completed the diplomatic negotiations necessary with entente diplomats at Berne to permit him to pass through the Dardanelles with a ship load of goods. The ship is his own purchase which he has bought outright. In addition he now has it laden at Hamburg with a cargo of 30,000 marks' worth of German manufactured products.

This ship load of stuff he will take through from Hamburg to Odessa via the Dardanelles. As German money, figuratively speaking, is now worth nothing and as Russian is worth considerably less, this ship load of fine German manufactured products will be exchanged at Odessa for whatever there is on the market there in the way of raw material, food stuffs, minerals or anything that has a high value in Germany.

Not a mark or a ruble will be exchanged in the whole transaction and the German ex-naval officer will load up his ship with the stuff he

gets in exchange at Odessa, bring it back to Germany and exchange it there for more manufactured products without taking the trouble to bother with a money intermediary, and keep up his business until he has a whole fleet of ships doing business on this basis.

Of course, should money ever come to have an established value again he will cash in and buy a continent or something.

In the meantime his present trip with 30,000 marks' worth of German merchandise is believed to be the largest bartering expedition that has taken place since Christopher Columbus exchanged with the Indians the gift of fire water for the American continent.

SOUTHERN CALIFORNIA

PASADENA, Dec. 10.—L. C. Benziger, of New York, who has made this city his winter residence for many years, has purchased the beautiful home of Alexander Duer, located at the southwest corner of Mariposa and Santa Anita avenues, Altadena. Consideration for the sale, which was made by the Blankenhorn-Hunter company, was \$25,000.

SAN DIEGO, Dec. 10.—Because he feared for his health if he rode in a crowded passenger car, Mahew Ehrhart, an elderly man, stole a ride on a freight train into San Diego and was fined \$50 by Judge Schuermer.

VISALIA, Dec. 10.—Because of certain abuses which have been reported of the right to use the Visalia High School campus, the Board of Education has passed a resolution forbidding the use of the athletic grounds or other equipment for other than strictly school purposes. One of the chief objections raised to the former use of the grounds was that baseball and other games were being played on Sundays.

SANTA MONICA, Dec. 10.—The

How to relieve skin troubles

If you are troubled with eczema—if your skin is rough, red, pimply and blotchy—if it itches and burns—simply apply to the affected part a little Resinol Ointment. It will even give quicker results if first bathed with Resinol Soap and warm water.

Resinol Ointment contains medicinal agents that quickly and directly upon the skin, heal its hurts and help it to keep healthy and attractive.

Procure a package from your druggist today, and let it rid you of those annoying, unsightly and embarrassing afflictions of the skin.

RESINOL SHAVING STICK soothes tender skins

rally of the Canadian tourist Association, which is meeting here this year will be held December 13. International speakers, city officials and prominent Canadians will speak. The city of Santa Monica is invited to attend the affair en masse. A big community "sing" will also be part of the programme.

PASADENA, Dec. 10.—Several prominent citizens of Pasadena appeared before the City Commission today to voice opposition to the project to build a municipal railway to Los Angeles, which has been revived by the commission. The speakers were Ernest H. Lockwood, former Assemblyman A. Burlingame

Johnson, C. W. Leighton and Leslie B. Henry.

REDONDO BEACH, Dec. 10.—No more will the thoughtless housewife be able to rush out and purchase necessary items to round out her dinner on Sunday. Trustees have passed an ordinance which makes it a misdemeanor for a shop keeper to sell meat or groceries on "the first day of the week, commonly called Sunday."

Shiloh Circle will elect officers tomorrow, 2:30 p. m., at G. A. R. Hall. Dept. President will be here. All members urged to be present.

THE PAJAMAS WILL FIT

There is nothing that brings a man more comfort than comfortable pajamas. We have them in both light weights and flannelets at

Scientific Service On Truck Tires

Our business is to make your cartage cost less.

As a Goodyear Truck Tire Service Station we strive to make sharp and obvious reductions in the sums our customers spend for their cartage. And we succeed.

In the first place, we see to it that our customers get the right kind, type and size of tire. We have studied carefully all the conditions under which trucks are operated here—and we know exactly what tire to recommend to fit each set of conditions—truck, load, road and service.

Then we apply the tire *right*, knowing that this has a lot to do with its success or failure. And we apply tires quickly, at night or on Sunday if necessary, to save the cost of laying up trucks.

Then at regular intervals, we inspect the tires we have sold—exactly as if they were still our tires, offering valuable tire-care suggestions.

When next you consider buying truck tires call us up. We'll be glad to send one of our representatives—an expert—to look over your trucks, recommend the proper tires and explain our service.

MAKE THIS AN ELECTRICAL CHRISTMAS

REACTION IN STOCKS SOON AFTER OPENING

NEW YORK, Dec. 10.—Prices among leading issues were fractionally lower at the stock market opening today. United States Steel, however, was up $\frac{1}{4}$ at 103 $\frac{3}{4}$; U. S. Rubber at 124, off $\frac{1}{4}$; Utah at 73 $\frac{3}{4}$, off $\frac{1}{4}$; Reading at 77, off $\frac{1}{4}$; Baldwin at 105 $\frac{1}{2}$, off $\frac{1}{4}$; Bethlehem B at 92 $\frac{1}{2}$, off $\frac{1}{4}$; General Motors at 32 $\frac{1}{2}$, off $\frac{1}{4}$. The entire list reacted before the end of the first half hour with particular pressure on some of the motors and equipments. Rails were fairly firm.

Clam chowder, like the dressing for poultry, is very dependent upon savory herbs for its delicious flavor.

HOUSE WORK IS LIGHTENED BY ELECTRICITY

More Used In Southland Homes Than Elsewhere In World

Electricity in the home is more common use in Southern California than in any other section of the world. This statement was made by J. G. Robertson, a local electrical dealer, yesterday. When asked why, he replied that there are several reasons. One is the low rate charged for electricity here. Another is the fact that the home maker of Southern California demands a quick clean way of doing her work so that she may get out and enjoy the climate.

This is the very reason that electrical appliances make such ideal Christmas gifts. To explain how there was an electrical appliance suitable as a Christmas gift for every member of the family, the dealer went into detail. He took each room of a house. From the basement to the attic he climbed, showing every room with its electrical appliances. In the cellar, where several batteries once supplied the energy for the doorbell, a small device now takes the juice of the light wire. In the screen porch near the laundry trays, he displayed the washing machine, the iron, the mangle. In the kitchen he showed the electric range, the egg-beater, the ventilating fan, the electric ice-making machine on the ice box, and the electric dishwasher.

Cleaner and Waxer
Then he stopped in the closet just off the entry, and there stood the vacuum cleaner, with the electric floor waxer. In the dining room were the plate warmers, the percolator, the heater in the corner. Out in the breakfast room stood a whole shelf of appliances. Grills for small steaks, devices on which to fry pancakes or eggs, an ovenette for baking light rolls, a turnover toaster, and a smaller heater than was used in the larger room.

The phonograph in the living room was driven by electricity. In the

drawing room stood a beautiful grand piano, which was electrically operated. Out on the porch where the family sit, was a fan. From there he passed to the upstairs. In the bathroom stood a heater of still another design. The shaving appliances were on display, and an electric immersion heater to heat the water for shaving or washing. In the boudoir was a vibrator, a curling iron, a hair drier, a massage appliance, a heating pad for the bed and device to make a marcelle wave. Then the sewing room with its motor-driven machine was displayed.

Dealer Enthusiastic

The dealer was enthusiastic. He had a right to be. Mother says today when thinking of the old place where she was raised: "Home was never like this." Take these appliances out of the residence of today, and you have few comforts left. Yet many homes are not completely electrically equipped and this Christmas many people are giving electrical appliances because of their usefulness. The energy that is used to run these devices is at the city's door. In the mountains, hundreds of miles from here, are the great hydroelectric plants of the local companies. Here the power is generated by water, by the endless mountain streams. Then it is brought over a small wire to the city. When the power is generated and released, it is of high voltage. This is carried over the desert stretches and high mountains to the small units here. It is then transformed into low voltage current and is ready to be used in the home. It is always on tap, there is no need to lay in a winter's supply of this fuel. It is there when you want it, and is turned off when you are through. There is no waste, no short measure, no over supply to save until it is needed. Just what you want, just when you want it.

CERTIFICATES READY FOR SUMMER READING

County Sunday School Secretary Rev. G. W. Kitzmiller is endeavoring to complete a list of those who have read at least three of the books prescribed in the summer reading circle, so that he may forward the certificate to persons entitled to them. If you have read the books and have not received certificates, the secretary should be notified so that he may send them by Christmas.

When you have to paste new paper on picture backing, wet it before pressing down on the paste on the frame and it will dry smooth.

ELECTRICITY IN HOME ADVANCES RAPIDLY

Practically Nothing Current Will Not Do With the Right Appliances

At first it is hard for the housewife to realize the many advantages of electricity, stated W. L. Demling, a prominent power company official, yesterday. Can you picture the surprise on the face of a Puritan in our forefathers' time if he were told that a force generated hundreds of miles away brought into his home over a wire, would be capable of cooking his meals? Can you imagine the delight that would be in store for the Southern lady of pre-Civil war days if she could have been shown an electric curling iron?

Yes, these questions and many others too, can be asked to demonstrate the rapid advancement of electricity.

There is practically nothing electricity will not do for you by properly utilizing it through the many modern electrical appliances so popular in the American home and so practical in Southern California, where electricity is so cheap.

Just think what ideal Christmas gifts the electrical appliances make. Something that will last a lifetime, practical and saves someone—mother, sister, or wife, from the drudgery of the home work every time it is used.

TO PREPARE COUNTY WAREHOUSE PLANS

Nat H. Neff, superintendent of maintenance of county roads, today had instructions from the board of supervisors to prepare plans and specifications for a warehouse of cement and rock bins to be built at the county's yards on a spur of the Santa Fe railway on Fruit St. Bids will be opened on January 6, at 11 o'clock.

Always pick cranberries over carefully before cooking—a few spoiled berries can doom the whole.

PIONEERS ATTEND DR. HEAD'S FUNERAL

Scores of pioneers of this county, together with many friends made in more recent years, were present yesterday at the funeral of Dr. H. W. Head. Services were held at Smith & Tutill's chapel. Interment was in Santa Ana cemetery.

The large attendance at the funeral evidenced the high esteem in which Dr. Head was held. Beautiful flowers in profusion expressed the sympathy and love of friends. Rev. F. T. Porter, pastor of the First Christian Church, was in charge. Music consisted of two numbers by a trio consisting of Rev. and Mrs. F. T. Porter and Mrs. La Rue Mayer.

The casket was carried by members of the Head family. Honorary pallbearers were old associates of Dr. Head. They were W. F. Heathman, J. D. Price, G. Harrison, James Ault, J. C. Joplin and T. L. Hill.

YORBA LINDA BONDS SOLD STAATS FIRM

The William R. Staats Company, of Los Angeles has been awarded the \$10,000 Yorba Linda school district bonds, the firm offering a premium of \$678. Eight bids were submitted to the board of supervisors, the lowest premium offered being \$362.

CONTINUE HEARING

The board of supervisors continued until December 16 at 2 o'clock the hearing on a petition asking the annexation of the Centralia elementary school district to the Fullerton Union high school district.

Gifts That Endure—

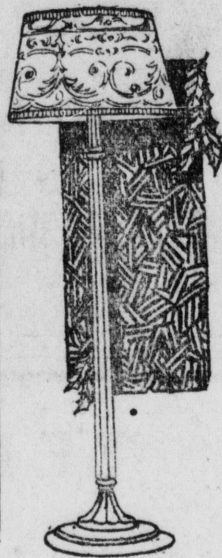

Toasters that turn the bread automatically.
Warming Pads—especially nice for the feet of elderly persons.
Sewing Machines of High Character.

Electric Washing Machines
Electric Ranges.
Toy Lighting Outfits for Christmas Trees.
Electric Lanterns.
Door Bell Equipment.

ART LAMPS

Designs either for library table or floor at about half the price you pay in the city. These lamps embody the most beautiful and most artistic assortment ever brought into Orange County. Come and see. In these modern days of efficiency the world demands practical gifts. It has broken away from the custom of giving presents that bring only momentary pleasure. Electric gifts, because of their practicability, are the most popular gifts for the present Yuletide. They possess all the qualities of the gift beautiful. You'll never find anything more beautiful or more desirable than these elegant lamps.

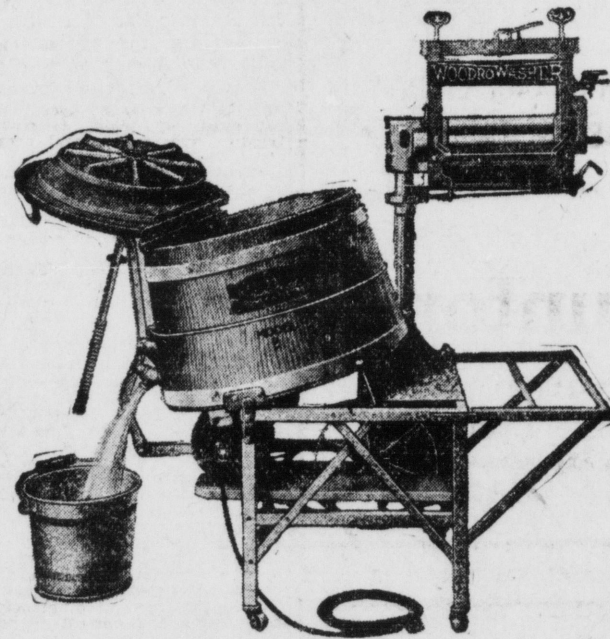

Now is the time to install your electric equipment for the pumping plant. We'll do it well. Anything in motors. We have the agency for the famous Wyandotte Washing Powder for electric washing machines.

Make Yours A Convenient Home--Electrically Equipped

Christmas Gift Suggestions

UNIVERSAL ELECTRIC Home Needs

In buying gifts for Christmas why not add something to the comfort and convenience of your home? After you start out doing things the electric way you'll know more of the joy of living.

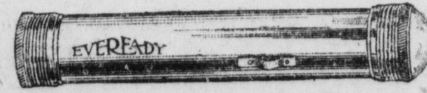

We are showing a very elaborate assortment of good percolators, toasters, curling irons, electric irons, electric fans, electric stoves, table stoves, sewing machines, door bell equipment and the like. It will do you good to drop in and see these new things. The stock includes about everything that is useful and practical, and worth the money.

ELECTRIC LIGHT FIXTURES

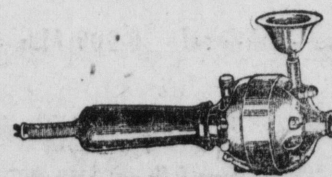

Why wouldn't it be a fine thing now when we have such a remarkable line of new fixtures to have some of them placed into your home as a Christmas gift to the whole family. Nothing could suit them better. Please do your shopping early.

Successful Washing Machines

We have on our floors several electric washing machines that have been proven entirely efficient. These machines will pay for themselves in a short while in the saving of laundry bills and you will be able to wash anything you need, exactly when you want it. Prices are quite reasonable.

For those who have outdoor work to do a good flashlight or an electric lantern would be a wonderful gift. We have the best there is and will always have batteries for them.

The electric vibrators we are selling have real virtues. They are recommended highly for any lady who wants a clear smooth skin and they are adaptable to many home uses. Give one for Christmas.

SANTA CLAUS IS COMING ON A LIVE WIRE THIS CHRISTMAS

Once Santa Claus crawled down the chimney on his Christmas visit, bringing toys and other things that amused or lasted for a short time. Now he comes into the house on an electric wire, and his presents do away with drudgery 365 days in the year because they are connected with the new power that is generated from the streams and waterfalls in our mountains and which does the work that women once did with a broom and dust pan and coal and oil and fire wood.

Let your electric dealer or our representative show you the wonders of electricity as a fuel saver and a work saver.

Then you will be prepared to welcome the electric Santa Claus when he comes on Christmas morning on a live wire.

Electric appliances are taking the place of all other cooking and heating devices. The cost of the current is approved by the representatives of the people before it becomes effective.

Notice to "Classified Liner" Advertisers

In future there will be no "Too Late to Classify" columns in the Register, and all "Classified Liners" or "Want Ads" to secure insertion the day they are received MUST BE IN THIS OFFICE BEFORE 11:30 A. M.

The reason for this change is that the Register's "Classified Liners" advertising has grown to such a volume that it is no longer practicable or even desirable to run the current day's business unclassified under a "Too Late to Classify" heading. As long as there was only a half column to a column and a half of this "Too Late" stuff, it might have been an advantage to the advertiser, as it was a convenience to the Register to run it apart from the body of "Classified Liner" advertising; but now that the current day's business averages two and a half to three columns, it is too hard for the reader to find what he is looking for. After all it is THE READER THAT MUST BE GIVEN FIRST CONSIDERATION, both by the advertiser and by the newspaper.

The only advantage to the advertiser that ever appertained to the "Too Late" method was in the fact that the Register readers had been educated to that method. Almost invariably when new residents or visitors insert a want ad, they call up and say they can't find it. When told it is in the "Too Late" columns they say they wanted it looked for it and expected to find it UNDER ITS PROPER CLASSIFICATION. That is the purpose of the main element of value in "Classified Liners"—that they ARE classified, making it easy for readers quickly to find what they are looking for.

Legal Notices

NOTICE OF TRUSTEES SALE UNDER DEED OF TRUST.

Whereas, Francis E. Crawford and Elsie V. Crawford, his wife, as trustee, did execute certain deed of trust bearing date the 25th day of January, 1912, to Orange County Title Company, a corporation organized and existing under the laws of the State of California, and having its principal place of business at the City of Santa Ana, in the County of Orange, State of California, as trustee for the benefit and security of Jno. S. Ordway, beneficiary, to secure the payment of a certain promissory note of date January 19, 1912, made by the said Francis E. Crawford and Elsie V. Crawford, for Eleven thousand five hundred fifty dollars, due on or before the 1st day of its date, with interest from date until paid at the rate of three (3%) per cent. per month, payable quarterly, and should the interest not be so paid the same to become a part of the principal and thereafter bear like interest as the principal; principal and interest payable in gold coin of the United States of the standard of gold, and the said deed of trust was recorded in Book 208 of Deeds, page 119 thereof, and

Whereas, default has been made by the said Francis E. Crawford and Elsie V. Crawford, in the payment of the terms thereof, except that the following dates, as follows, to-wit: February 28, 1912, \$500.00; April 30, 1912, \$525.00; June 30, 1912, \$550.00; August 31, 1912, \$575.00; October 31, 1912, \$600.00; leaving all of the residue of said principal and accrued interest unpaid.

Whereas, all of the real estate described in said deed of trust has been conveyed by said trustee to said trustee, except the real estate hereinafter described.

Now Therefore, pursuant to the said notice and demand, and in accordance with the terms and under the authority of the said deed of trust, the said Orange County Title Company, a corporation, as such trustee, does hereby give notice that on Tuesday, the 10th day of December, 1919, at the hour of ten o'clock in the forenoon of said day, at the South front door of the Court House in the City of Santa Ana, County of Orange, State of California, it will sell at public auction to the highest bidder for cash, gold coin of the United States, the property in said deed of trust and hereinafter described, or so much thereof as may be necessary to pay said amount of principal and interest, due and unpaid on said promissory note, and such sums as have been advanced by said beneficiary under the provisions of said deed of trust, and expenses of sale, and to accomplish the object of the trust in said deed of trust provided.

All that certain real property situated in the Rancho Santiago de Santa Ana, County of Orange, State of California, described as follows:

1st. Lot 3 of the El Modena Citrus Lands, as shown on a Map recorded in Book 6, page 22 of Miscellaneous Maps, records of Orange County, California. Excepting therefrom the Westerly 159 feet.

2nd. Lot 40 of the El Modena Citrus Lands, as shown on a Map recorded in Book 6, page 22 of Miscellaneous Maps, records of Orange County, California. Excepting therefrom a tract described as beginning at the Northern corner of Lot 39 of said El Modena Citrus Lands; thence South 0° 12' West 412.8 feet; thence North 53° 22' East 867.9 feet to the south line of Lot 39 of said El Modena Citrus Lands; thence North 89° 30' West along said line 551.1 feet; thence South 17° 14' West 157.4 feet to the point of beginning, containing four acres.

Also excepting therefrom a tract described as follows:

Commencing at the Northeast corner of Lot 24 of said El Modena Citrus Lands; thence North 0° 12' East 350 feet; thence North 89° 30' West 805.7 feet; thence North 0° 12' East 329 feet; thence North 89° 30' West 330 feet to a point on the Westerly line of Lot 40 of said El Modena Citrus Lands; thence South 0° 12' West along said line 1189 feet to the Southwest corner of said Lot 40; thence South 89° 30' East along the southerly line of said Lot 40, 1135.7 feet to the point of beginning, containing 15 acres, more or less.

Also excepting therefrom a tract described as beginning at the Southeast corner of Lot 34; thence North 88° 18' East 862 feet to the Southwest corner of Lot 17 of said El Modena Citrus Lands; thence North 0° 12' East 342 feet; thence South 0° 12' West 200 feet; thence South 17° 14' West 521 feet; thence South 0° 12' West 500 feet to the point of beginning, containing 10.24 acres.

(First publication November 24, 1919.) Reserving from all of the above described property the right to develop and distribute water for domestic and irrigation purposes as conveyed by Francis E. Crawford and wife to El Modena Mutual Water Company, by deed recorded November 8th, 1911.

In Witness Whereof, the Orange County Title Company, has hereunto caused the corporate name to be subscribed this 24th day of November, 1919, by its president and secretary, thereunto duly authorized.

ORANGE COUNTY TITLE COMPANY.
(SEAL) By C. E. PARKER, President.
By F. W. MANSUR, Secretary.
(First publication November 24, 1919.)

TRACTOR LECTURE AT WEST ORANGE TONIGHT

Prof. L. J. Fletcher, tractor expert from the University Farm, Davis, will give an illustrated lecture on "What Type of Tractor Shall I Buy" at the West Orange Farm Center tonight, 7:30 p. m. He will explain the desirable features to be looked for in a tractor, including lubrication, ignition, repairs, etc. All farmers are invited to attend.

BELGIUM STILL WAR TORN DESERT

Little Effect In Making Place Productive Work of Small Armies Has

By Edwin W. Hurlinger)
(United Press Staff Correspondent)
YPRES, Belgium, Dec. 10.—Although small armies of men, mostly German prisoners, have been working for a year, devastated Belgium looks today just as barren and war-torn as when the armistice sent the German armies hurrying back into the distances from which they had come.

So immense is the reclamation task before them, it is not noticeable that the workers have made any impression at all.

Ypres itself, a collection of ruins, has hardly been touched. The debris has been swept from the streets and a leanto station put up near the site of the old. A few restaurants have been reopened for tourists and relatives of fallen soldiers visiting the zone.

A small gauntlet of postal card sellers and curio vendors forms regularly outside the station a few minutes before tea time. Several liverrymen and garage owners do a fine business driving sightseers over the battlefields.

But minus these, Ypres is today as she was in 1918.

To the east, south and north stretches an ugly, shell-chopped lifeless terrain, where gangs of "body-snatchers" (The Tommy's name for grave hunters) are still wandering.

Now and then in some out of the way grassy spot a crater they still find a weather-soaked uniform, gray or khaki, with a human skeleton inside it. They gather the bones together in a sack and carry them back to headquarters.

Find Forgotten Graves
Or they find a forgotten grave, probably marked by a little rain-blackened wooden cross. The battle area is dotted with these crosses—the only epitaph on some being a rusty trench helmet. The "body-snatchers" job it to dig up the bodies, put them in sacks, too, and bring them away for re-burial.

Wreathed tanks, wagons, trucks, ammunition dumps, pill-boxes are scattered up to the horizon. Four miles down the Menin road from Ypres 28 British tanks lie in one field, called the "Tank Cemetery."

Of many smaller villages not even the ruins remain, the walls having long since been reduced to stone dust.

Of the old magnificent forests up the railroad there are only occasional naked tree-stems, with a few leafless branches. There is no living tree left for miles and miles.

German gas did it.

The old inferno of sound has given place to a more terrible silence—a silence unbroken by living creature. No birds, no moving things in the grass, nothing but the absolute silence of a man-made desert.

From the agricultural point of view, the country is years in the future. Every square foot must be leveled and restored. Only here, the undertaking is infinitely more difficult. Any moment the workman may run into an unexploded shell or hidden death trap.

Every farm will have to be equipped with a complete new drainage system. The old pipes were ripped out during the early part of the bombardment, allowing the waste water to spread over the flat countryside and collect in depressions.

ODD NEWS NOTES

NEW YORK.—Joseph Farone's cat had mange on its tail. Joe cut the tail off to keep the mange from spreading. The judge fined him \$15.

CHICAGO.—Marko Botiza, mistaking revenue men for bootleggers, showed them his stock of plain and fancy booze. He was held in bonds of \$1,000.

CHICAGO.—Lloyd Craig, of Oskaloosa, Ia., wore his pants to bed last night. It was a good thing because he was found walking around the loop in his sleep, shoeless and shirtless.

SACRAMENTO.—William Lihely, 75, suing for non-support, declares he inveigled him into marriage two years ago, promising to keep him in "luxury and ease." She has \$500,000, he says.

OAKLAND, Cal.—William S. Brown was freed on an arson charge when he testified he accidentally set a house afire while burning his faithless sweetheart's wardrobe.

SAN FRANCISCO.—Walter Sellers is bemoaning the loss of \$1,100 and police are searching for light fingered "Beulah," who is described as fat, forty, and having a broken nose.

NEW YORK.—A woman carried a handful of Armin Hollinger's diamond rings to the front of the store to "get a better light." She kept right on going. Armin told the police, and escaped in an automobile.

BOSTON.—No more "kidding the cops." Police Commissioner Curtis announces he'll ask state colonels to pass a law authorizing bluecoats to pinch persons who indulge in remarks about policemen's feet.

DETROIT.—Criminologists to day were concerned over Harry X. Williams' future; they fear he will not turn out well. Aged 31, he is regarded as a "master up."

IT HAS MADE ME FEEL 20 YEARS YOUNGER

"Tanlac Is Finest Thing I Ever Heard of," Says William Thompson

"After eight years of suffering, Tanlac has put me on my feet and made me feel twenty years younger," said William Thompson, a well known mechanic employed by the city of Berkeley, Cal., and who lives at 1116 Glen Ave., the other day.

"Acute indigestion bothered me so bad," he continued, "that I would have violent pains in my left side, and I was afraid to eat anything because it always caused me awful suffering. Gas would form on my stomach, and I would get so tight as a drum, and I would get so short of breath I thought every minute would be my last one. I was so constipated that I had to take a laxative every night, and at times I would get so dizzy I couldn't walk and would have to lean up against a building until this feeling passed over and I came to myself. I never slept good at night and my kidneys were out of order and many a night I would have to get up four or five times and I had awful pains in my back that were caused by my kidneys."

"This was my condition and I might have still been in this shape now, if it hadn't been for a friend who recommended Tanlac to me so highly that I decided to try it at once. It seems too good to be true that after all these years I finally found a medicine that can do what Tanlac has done for me. Why, I never have the sign of a pain now and no matter what I eat I digest it perfectly and don't suffer from gas or from pains in my stomach. Those dizzy spells never come on me and I'm not constipated and sleep like a log every night and get up feeling like a young man. Tanlac is the finest medicine I ever heard of and it was a lucky day for me when my friend told me about it, and you can count on me to pass the good word along whenever I get the chance."

Tanlac is sold in Santa Ana by Rowe Drug Co., in Fullerton by C. W. Finch, in La Habra by R. H. Hilbert, in Huntington Beach by Rigdon's Pharmacy, in Orange by Dittmer's Mission Pharmacy, in Placentia by A. J. Robinson, in Tustin by Tustin Drug Co., in Brea by Brea Pharmacy, in Buena Park by Regal Drug Co., in Garden Grove by O. H. Anderson, in Laguna Beach by Laguna Beach Pharmacy and in Seal Beach by Wm. S. Templeton.

Chocolate Frosting — Melt two squares chocolate, add 3-4 cup sugar and 3 tablespoons milk. Cook until smooth. Add butter size of a walnut.

ANALYZE WORLD PROBLEMS FOR PUBLICATION

University Professors Discuss Various Angles of the Situation

World problems arising from the unprecedented conditions resulting from the world war are presented and analyzed in an unprejudiced and scientific manner by members of the faculty of the University of California in the latest issue of the University of California Chronicle issued by the University Press.

Charles Cestre, professor of American Literature and Civilization at the University of Paris, and visiting professor of the University of California summer session, 1919, writes on "French and American Peace Idealism." Professor Cestre states that at the outbreak of the war, both France and America had outgrown the phase of imperialism. "Both had avowed allegiance to political democracy and were paying more than lip service to those noble developments of liberty, equality and fraternity—social democracy at home and international democracy abroad."

Thomas H. Reed, professor of municipal government, writes on "The League of Nations and the Peace of the World." He states: "There would be grave reason for despair if out of the horror of four years of war there should not come at least a determination that the world should not again be inconsiderately plunged into a maelstrom of destruction."

Edward Kennard Rand, sather professor of classical literature, writes on "Italy and the Prospects of a League of Nations," in which he pleads for a recognition of Italy's just boundary claims.

Joel Hildebrand, professor of chemistry, writes on "University Ideals." He says: "It is our business to make the university a place where atmosphere, training, and ideals conspire to make leaders of the men born with capacity for it."

President David P. Barrows discusses Bolshevism, which he defines as a program of thoroughgoing communism to be realized immediately and as far as possible simultaneously in all countries by violence. His historical treatment of the Bolshevik and the Soviets with their reign of terror is admirably outlined. "The goal of Bolshevism is power," Dr. Barrows concludes.

Professor Clair Hayden Bell, in charge of censoring at the port of embarkation, Hoboken, New Jersey, writes with approval of the chief military censor, military intelligence division, general staff, U. S. of the seas and trenches.

A. "What the Censor Saw." The article reveals the innermost thoughts of the American soldiers as they embarked from America for the front. There are letters from a boy to his mother, from a husband to his wife and baby, from a father to his daughter, from a brother to his sister. Fragments of letters bearing out Professor Bell's statement, "He lacks imagination indeed who does not realize the heart tug and pulse quickening which were felt by our fighting men as then entered the port of embarkation, the portal to the blood-soaked battlefields of Europe—as they crossed the gangplank separating them from kith and kin, and leading them to the vivid perils of the seas and trenches."

Sentences from some of the letters are as follows:

When I bid her good-bye she only said about two words and then broke down and cried. Her cries just broke my heart—I could not control myself any longer—my heart was so full of love for her.

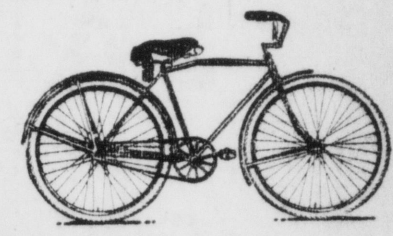

What was before most worth living for seems now most worth dying for—if need be. But we shall hope and pray for a new and blessed reunion.

I have not slept since I left you, but have thought constantly of you and the angel kiddies.

Damn the Censor. You were so dear this morning to send me off with a smile, for it was the hardest thing we ever had to do.

SPECIAL

Good Till Dec. 17th

This Advertisement Is Good for \$2.00 in Payment

on a new bicycle. This liberal offer is made to estimate our Christmas business at an early date. You will find our bicycles marked at the same low price that they were when you looked at them before.

We have added to our line of bicycles the Harley Davidson along with the Peerless, Miami, Crown, American, Victory, Readington, Echo, Ariel, Arrowfast and Enduro. This gives you the finest and most complete line of bicycles to choose a Christmas gift from.

The same easy payment plan goes with this special offer, so call and pick the one you want Santa Claus to deliver Christmas.

MEDAL CONTEST WILL BE HELD AT TUSTIN

Annual Christmas Bazaar Is Success; Church Plans Are Discussed

TUSTIN, Dec. 10.—The medal contest, which is to be held Friday evening at the Tustin school house auditorium under the auspices of the Tustin W. C. T. U., will be of great interest to the parents and friends of the pupils who are to take part.

It has been some time since one of these medal contests has been held in Tustin and this promises to be a lively one. The readings which will be given have been learned in the regular school work during the fall term among higher grades, and the pupils have not been given extra work to do in preparing.

The public is invited to attend on Friday night, December 12, at the school auditorium. There will be eight contestants.

The annual bazaar and sale of fancy articles held last Friday at the Bowman home was quite a success. The little rain did not interfere with the sale of Christmas goods, and the bazaar was visited by most of the women in Tustin and also a number of men, who were glad to take advantage of the side issue in the dining room where sandwiches and coffee were dispensed, also wafers and ice cream. The Ladies Aid has not held a business meeting since, but they are sure of having a substantial little sum to add to the church building fund.

The trustees of the Tustin Presbyterian church held a meeting Monday night and had with them H. M. Patterson, architect of Los Angeles. Plans and material for a new church were talked over, although an architect has not yet been employed. Pictures and plans of elevation will be considered next. Late in January they are expecting to be ready to do something definite in regard to a financial canvass.

Rev. W. S. McDougall, A. Thorman, P. J. Ebel and B. F. Beswick were invited to attend the morning service last Sunday at Eagle Rock Presbyterian church where A. E. Bennett and family are now attending. The church has just been finished and dedicated, and proved to be very interesting to those who are interested in building a new church in Tustin. They were guests of Mr. Bennett at dinner.

The evangelistic services which have been conducted by Rev. Shepard at the Tustin Advent Christian church, closed last Sunday. There were fifteen additions to the church, ten were baptized on Wednesday night and five on Sunday morning.

W. A. Jones has just returned from an interesting trip east to Detroit where he attended the Y. M. C. A. National Convention, and also Cleveland, Ohio, where he visited his mother and sister.

The A. E. Bennett home has been purchased by Byron Crawford. Mr. Crawford and family will soon move to their new home.

Born—to Mr. and Mrs. Cleo Poh, a boy, Ralph Edwin, on Monday, December 8.

Mr. and Mrs. Wm. Poh, of McCook Nebraska, are visiting his brother John Poh and family.

C. E. Utt returned last Friday from a month's trip down in Mexico. The ten acre Dowell ranch on Rainbarren avenue has been re-sold. It is to be divided and two new homes built upon each five acres.

The new Robinson home on Santa Clara avenue is nearing completion. Lots of fun and a jolly good time throughout the evening was enjoyed Saturday night at the Rubie Dance held at the Tustin K. P. Hall.

As the guests arrived the costumes became more and more amusing and mirth provoking until Harvey Kendrick caused the climax and won the first prize as Cy Perkins. Mrs. Grover Fritz carried off the first lady's prize. Mr. and Mrs. Wm. Leinberger won the second prize.

Turner's orchestra played the old time music for the dances. The decorations carried out the country style and the refreshment was sweet cider.

Peppermint Drops—Two and one-half cups sugar, ½ cup water. Let boil six minutes. Flavor with a few drops of peppermint. Stir until thick, then drop on a buttered paper.

MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone!

Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

30c and 60c jars; hospital size \$2.50.

MUSTEROLE

WILL NOT BLISTER

ORANGE NOTES

ORANGE, Dec. 10.—The King's Daughters met at the home of Mrs. Minnie Hutchinson, 136 North Grand street. The attendance numbered 13, including several visitors. The names of two new members were received.

The treasurer reported receiving the offering taken at the union Thanksgiving service on Sunday evening, November 30, amounting to \$28.50. The ladies are grateful for this generous donation and will try to make good use of it.

On motion, it was decided to purchase material and make aprons for sale; also to take orders for making aprons, tacking comforts and any other work that the society can do. This work will be in charge of the work committee, of which Mrs. M. E. Williams is chairman. Some garments for babies were donated and it was suggested that more such donations would be acceptable, as there is always a demand for these little garments.

The next meeting will be held on Monday afternoon, December 22, at the home of Mrs. M. E. Williams, 343 South Grand street, and there will be a comfort to be tacked.

Mrs. P. I. Bird, of 269 North Glassell entertained the E. T. C. Club. The usual fancy work and good time was enjoyed by Mrs. D. P. Crawford, Mrs. A. B. Lane and Mrs. Anna Spray as guests of the club and Mrs. John Richards, Mrs. Alfred Higgins, Mrs. F. E. Mellor, Mrs. Charles Meadows, Mrs. Lawrence Hemphill, Mr. D. C. Drake, Mrs. William Marsh, Mrs. C. S. Weaver, Mrs. O. J. Johnson.

Mr. and Mrs. Henry Hahn of Phillipsburg, Kansas, who were in Orange, about four months ago and since that time have been visiting in the northern part of the country, have returned to Orange. They may spend the winter here or may decide to locate, as they like this part of the country better than any they have seen. They are at present visiting at the home of Mr. and Mrs. M. Ellistie.

The Super Six Club met with Miss Leta Parker at the Clyde apartments and assisted Miss Edith Lutz in celebrating her birthday. The club presented Miss Lutz with a picture as a token of remembrance, and after an evening of fancy work a birthday cake with candles was served.

Mrs. Guy Crawshaw and children are down from Nuevo, staying with her mother, Mrs. Robert Lipe, who has been suffering with an abscess behind the ear, but is now getting better.

J. V. Miller and family of North Pine street, left yesterday for their future home in Oregon and will visit at Exeter on their way north.

JUDGE IS FORCED TO NUMBER FONG SINGS

San FRANCISCO, Cal., Dec. 10.—So many Fong Sings appeared to the charge of violation of the federal narcotic laws that Federal Judge William Van Fleet of the federal court here was forced to place them in numbered chairs, such as "Fong Sing No. 1. Fong Sing No. 2," etc., down the line. Each was treading on the other's toes, so to speak, and all the attorneys and all the king's men had a terrible time parting them again. Forty-two Chinese faced the charge of selling narcotics without a license.

30x3½ Smooth Firestone, \$15.10. 6000 miles guarantee. Livesey's, 214 E. 4th street.

BATHER IS NEAR DEATH FROM GAS FUMES

Slam of Door Puts Out the Flame of Burning Gas Stove

LA HABRA, Dec. 10.—Chas. Smith of La Habra, an employee of the Standard Oil company, narrowly escaped death by asphyxiation. Returning from work he lit the gas burner in the bathroom and turned on the water preparatory for a bath. After shaving he undressed and just as he entered the tub he slammed the bathroom door. It is thought as he shut the door the wind from the same blew out the flame of the gas stove.

Some time after the water had ceased running, and hearing no sound in the bathroom, Mrs. Smith went to the door and found it locked. Not being able to get a sound she peered through the window and saw Mr. Smith lying in the tub and his face turned black.

She called neighbors to her assistance. The room was entered and after some three hours work Mr. Smith, who was found to be unconscious, was brought back to consciousness.

A Quinine That Does Not Affect Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE (Chas. Lett) can be taken by anyone without causing nervousness or ringing in the head. There is only one "Bromo Quinine." E. W. GROVE'S signature on the box. 30c.

WILL GROW MILLIONS SWEET POTATO PLANTS

BENTONVILLE, Ark., Dec. 10.—Many persons do big things in rather odd vocations and professions, and Claude Wagner, a farmer near this city, comes under that heading with a most odd business venture. As a result of his progressive spirit and ability to produce in large numbers, Northwestern Arkansas and south-west Missouri should not suffer for dearth of sweet potato plants.

Wagner is planning to plant 1,000 bushels of sweet potatoes for next season, which, it is estimated, will produce 1,000,000 plants. They will be ready for the market April 20. He also raises tomato plants and already has contracts for furnishing 1,000,000 of these plants to gardeners and others early next spring.

The tomato seeds are planted in hotbeds in February, transplanted to cold frames in March and ready for the trade in April. Wagner has been at this business for a number of years and the magnitude to which his business has grown shows with what success he has met. He started by producing a small number of plants in connection with his regular farm work, but soon found that the special work paid him the best and he is devoting all of his time to it.

EL TORO NEWS

EL TORO, Dec. 10.—Mrs. E. Lopez of Los Angeles is paying a visit to her parents, Mr. and Mrs. F. M. Gordon.

There will be a Christmas Tree program at the town hall on Tuesday evening, December 23d.

Mrs. Harvey Bennett and two little daughters, Helen and Beverly, visited in Santa Ana recently.

The Ladies' Aid Society will meet at the home of Mrs. F. M. Gordon on Wednesday, December 17.

Miss Stella Anderson, the primary teacher here, spent the week-end with her parents in Santa Ana.

The usual services will be conducted at the Episcopal Church this evening by the Rev. H. V. Harris of Orange.

The little daughter of Mr. and Mrs. Baker has just recovered from an attack of ptomaine poisoning.

The rains of the last few days were much needed by the many ranchers of this community.

The school children are very enthusiastic over the work of selling Red Cross Christmas Seals. They find a ready sale for them with almost everyone they encounter.

Mr. and Mrs. G. W. Conaway and son, Floyd, spent Saturday and Sunday with relatives in Wintersburg.

Mr. and Mrs. W. H. English, formerly of El Toro stopped in El Toro Saturday last on their way to San Diego, where they were going to spend Saturday and Sunday.

Mr. and Mrs. Watmar of El Toro were Monday visitors in Fullerton.

TWINS ARE EPIDEMIC IN TOPEKA FOR TIME

TOPEKA, Kan., Dec. 10.—Race suicide has had a terrible setback in Topeka since Oct. 11, for between that day and Oct. 21 three sets of twins, all healthy and all thriving, were born in Topeka. In each of the three Topeka families thus blessed there are four children older than the twins.

Margaret Maxine Thompson and Max Reese Thompson were born on Oct. 11 to Mr. and Mrs. James D. Thompson, No. 1830 Kansas avenue. Four other children are in the Thompson family.

Robert and Charles Council were born on Oct. 14 to Mr. and Mrs. Robert A. Council, No. 732 Madison. There are four children older than the twin babies in this family also.

Frank and Fred Coffee were born on Oct. 21 to Mr. and Mrs. Charles Coffee, No. 1135 North Quincy St. Here also there are four older children.

The oldest mother of the three is thirty-five, the youngest twenty-five.

GARDEN GROVE NEWS

GARDEN GROVE, Dec. 10.—The Chamber of Commerce met in regular session Monday evening. Supervisor R. Talbert and former Highway Commissioner Newlin were present. Among other matters disposed of was the endorsement of the good roads proposition. The Free County Library is now assured.

The annual sub-district Woman's Home Missionary Society held their all-day rally at the Methodist church Friday. Devotions were conducted by the pastor, Rev. Harkness. A five minute report was given by each auxiliary. Mrs. F. A. Monroe gave a report of the Queen Esther Circle. The afternoon was interesting with a very comprehensive report of the National convention at Chattanooga by Mrs. Northrup.

Rev. Hartsell, field manager, gave a report of the Methodist Hospital in Los Angeles. Americanization was discussed quite at length by Rev. Mendoza, of Santa Ana, who is on record as a missionary among his countrymen, the Mexicans. He has been in the United States five years and explained why he had not become naturalized, for the reason usually given by Mexicans, he "expects to return to Mexico."

Mr. and Mrs. G. W. Rolfe and Mr. and Mrs. J. T. Watson enjoyed Tuesday at Laguna Beach.

R. Beers Loos, of Hollywood, is assisting Vernon King with the publication of the Garden Grove News during the rush until the first of the year. Mr. Loos has many friends who rejoice that he is again on the editorial staff of the News.

Mr. and Mrs. R. J. Stoops, from Oregon, are guests of their daughter, Mrs. J. C. Mitchell. They expect to spend the winter in the Sunny Southland.

FINE BISCUIT MAKER

ST. LOUIS, Mo., Dec. 10.—When P. H. Sinclair, of Forest City, Mo., and Mrs. Melinda C. Esterbrook, of Iowa Point, both eighty years old, applied at the recorder's office here for a marriage license, Sinclair said he was marrying Mrs. Esterbrook because she could make good biscuits. The bride-elect admitted she could make them just like mother turned them out.
